

STAUFFER CHEMICAL COMPANY

POST OFFICE BOX 86

HENDERSON, NEVADA

March 5, 1957

The Honorable C. D. Baker
Mayor of the City of Las Vegas
Las Vegas, Nevada

Dear Mayor Baker:

The week of April 8-12, 1957 is being designated throughout the nation as Chemical Progress Week.

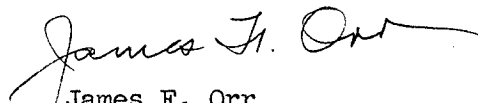

The people of Nevada have long enjoyed the products of the Chemical Industry, originating outside the State. Now its people are busily engaged in creating a chemical industry of their own, as evidenced by the operations at Henderson.

We of the industry would be indeed appreciative if you would proclaim the week of April 8-12 as Chemical Progress Week in Las Vegas.

We are attaching a suggested form of proclamation which may be modified as you wish.

Thank you for your consideration.

Yours very truly,

James F. Orr
Nevada State Chairman for
Chemical Progress Week
