SHEET TITLE:
SITE PLAN

SCALE:
AS NOTED

DATE:
05-05-11

ISSUED FOR:
PERMIT

SHEET:
A0.1

GENERAL PLANTING NOTES:

1. The contractor shall carefully study the drawings, and shall carefully examine the site, and shall be aware of all existing work and conditions that could possibly affect his work.
2. Contractor to verify all conditions and any discrepancy is to be reported to the Owner prior to work in that area.
3. Contractor shall verify the location of all underground utilities.
4. Contractor is responsible for all permits, coordination, scheduling, utility verification and damage to other trades and/or utilities.
5. The contractor shall comply with all laws, rules and regulations of all authorities having jurisdiction over the premises, the contractor shall obtain all necessary permits for this work.
6. Contractor shall be responsible for rough grades surrounding all structures, walks and site amenity areas. Landscape contractor shall provide finish grading in planting areas to insure positive drainage away from all structures.
7. Plant quantities on the plant schedule are for convenience of the contractor only. Verify counts.
8. All plant material shall conform to nursery standards according to American Association of Nurserymen, Inc. and shall be free from all pests, eggs, diseases, and shall be representative of species in size, quality, form, color and not root bound, damaged or substandard in any way.
9. 10% of each plant material species shall be tagged with botanical name from the nursery or supplier, tags shall remain on plant material until final acceptance.
10. Landscape contractor shall install decomposed granite in all planter areas. Prior to installation of decomposed granite, apply one application of pre-emergent herbicide (Surflan or Equal). After placement of decomposed granite, apply a second application of pre-emergent herbicide over decomposed granite. Apply pre-emergent herbicide following manufacture's recommendation.
11. When caliche is encountered during planting pit excavation: If impervious layer is less than 6" thick, remove completely. If layer is 6"-15" thick, punch a hole through the layer. Place a 4" diameter PVC pipe chimney filled with 3/8" pea gravel through the caliche layer to the bottom of planting pit. If layer is greater than 18" enlarge the planting pit as indicated in the details.
12. Prior to commencement of maintenance period contractor shall submit a watering/ maintenance schedule to the Landscape Architect for approval.

CIVIL PLAN 42607

ARCO at 3701 W. Sahara Avenue (SDR-34010)

Date: 08/31/11

Reviewer: Steve Gebeke, Planning Supervisor

Reason for Revision: Provision of a bus turnout and shelter on Valley View Boulevard

Additional Info:

The site plan is revised to depict a bus turnout and shelter on Valley View Blvd., south of Sahara Avenue. The single driveway shown in the plans originally approved will be replaced with two driveways on either side of the shelter area. Landscaping is revised along Valley View only to create two planter areas north and south of the shelter, with trees and shrubs per Title 19.08.

Staff is administratively approving this revision as the addition of the bus turnout and shelter is need at this location, and the impact to the site is minimal. Landscaping will be provided to comply with Title 19.08 where possible. The reduction in landscape buffer width along Valley View is approved as consistent with Title 19.14.090 Nonconformity Resulting from City Action.

Conditions:

1. Conformance to the site plan and landscape plan date stamped 08/30/11.

RE: EOT-42574 – EXTENSION OF TIME
CITY COUNCIL MEETING OF SEPTEMBER 7, 2011
RELATED TO EOT-42573 AND EOT-42575 - SPECIAL USE PERMIT

Dear Mr. Kamar:

The City Council at a regular meeting held September 7, 2011, APPROVED the request for an Extension of Time of a previously approved Special Use Permit (SUP-34006) FOR A BEER/WINE/COOLER OFF-SALE ESTABLISHMENT at 3701 West Sahara Avenue (APN 162-07-512-010), C-1 (Limited Commercial) Zone. The Notice of Final Action was filed with the Las Vegas City Clerk on September 8, 2011. This approval is subject to:

Planning

1. This Special Use Permit (SUP-34006) shall expire on October 7, 2013 unless another extension of time is approved by the City Council.

2. Conformance to the conditions of approval of the Special Use Permit (SUP-34006) and all other site related actions as required by the Department of Planning and Department of Public Works.

Sincerely,

Lean Coleman
Deputy City Clerk II for

ARCHITECTURE • PLANNING • INTERIOR DESIGN

July 19, 2011

City of Las Vegas
Planning & Development Department
731 S. Fourth Street
Las Vegas, NV 89101

Justification Statement for 3701 West Sahara

Ladies and Gentlemen:

GK³ Architecture, on behalf of Mr. K, S LV LLC is requesting the review and approval of an extension of time for:SDR-34010, SUP-34006 and VAR-34008 for the rebuild of the South West corner of Sahara Ave. and Valley View Blvd. The site design includes a 6 pump Gas Station with a 2,400 SF convenience store. The existing auto maintenance building and canopy will be removed and new structures will be built. The site design is consistent with originally approved plans. The building entrance, site parking and fuel canopy face Sahara Ave. The site layout utilizes the building to buffer the traffic from the single family residential to the South. The project meets City of Las Vegas parking and landscape requirements.

The building permit application was submitted 06-27-2011, the permit application numbers are: 190713 and 190714. Since obtaining original approval 10-27-2009, the current owner has completed the purchase the property, obtained Arco Am/Pm franchise approval and has had the construction documents completed. The project is scheduled to begin construction with-in 6 months time and be fully improved with-in 1 year. This site plan conforms with the development pattern in the surrounding area and is an appropriate use for this corner site. The benefits for the project are to support the goals of the City of Las Vegas by creating a stable, identifiable and functional commercial district. The uses are supportive and compatible with the neighboring land uses and this will be an asset to the area.

The approval of the proposed design would not constitute a grant of any special privilege. The building would not allow a use or activity which is not permitted without a special use permit in the C-1 Zone, and would pose no adverse effect to public health, safety, or welfare.

Thank you for your consideration of these matters.

Sincerely,

Gemie M. Knisely, RA

RE: SUP-34006 – SPECIAL USE PERMIT
CITY COUNCIL MEETING OF OCTOBER 7, 2009
RELATED TO VAR-34008 AND SDR-34010

Dear Mr. Pham:

The City Council at a regular meeting held October 7, 2009, APPROVED the request for a Special Use Permit FOR A BEER/WINE/COOLER OFF-SALE ESTABLISHMENT at the southwest corner of Sahara Avenue and Valley View Boulevard (APN 162-07-512-010), C-1 (Limited Commercial) Zone. The Notice of Final Action was filed with the Las Vegas City Clerk on October 8, 2009. This approval is subject to:

Planning and Development

1. Conformance to all minimum requirements under LVMC Title 19.04.010 for a Beer/Wine/Cooler Off-Sale use, including parking requirements.

2. Approval of and conformance to the conditions for Variance (VAR-34008) and Site Development Plan Review (SDR-34010), if approved.

3. This approval shall be void two years from the date of final approval, unless a building permit has been issued for the principal building on the site. An Extension of Time may be filed for consideration by the City of Las Vegas.

4. Approval of this Special Use Permit does not constitute approval of a liquor license.

5. All beer and wine coolers shall remain in their original manufacturer's configuration of four or six-packs.

6. The sale of single beers, malt beverages, or wine coolers of any size with alcohol by volume greater than 6% shall be prohibited. The sale of wines with an alcohol by volume of greater than 16% shall be prohibited.

GENERAL PLANTING NOTES:

1. The contractor shall carefully study the drawings, and shall carefully examine the site, and shall be aware of all existing work and conditions that could possibly affect his work.
2. Contractor to verify all conditions and any discrepancy is to be reported to the Owner prior to work in that area.
3. Contractor shall verify the location of all underground utilities.
4. Contractor is responsible for all permits, coordination, scheduling, utility verification and damage to other trades and/or utilities.
5. The contractor shall comply with all laws, rules and regulations of all authorities having jurisdiction over the premises, the contractor shall obtain all necessary permits for this work.
6. Contractor shall be responsible for rough grades surrounding all structures, walks and site amenity areas. Landscape contractor shall provide finish grading in planting areas to insure positive drainage away from all structures.
7. Plant quantities on the plant schedule are for convenience of the contractor only. Verify counts.
8. All plant material shall conform to nursery standards according to American Association of Nurserymen, Inc. and shall be free from all pests, eggs, diseases, and shall be representative of species in size, quality, form, color and not root bound, damaged or substandard in any way.
9. 10% of each plant material species shall be tagged with botanical name from the nursery or supplier, tags shall remain on plant material until final acceptance.
10. Landscape contractor shall install decomposed granite in all planter areas. Prior to installation of decomposed granite, apply one application of pre-emergent herbicide (Surflan or Equal). After placement of decomposed granite, apply a second application of pre-emergent herbicide over decomposed granite. Apply pre-emergent herbicide following manufacturer's recommendation.
11. When caliche is encountered during planting pit excavation: If impervious layer is less than 6" thick, remove completely; if layer is 6"-18" thick, punch a hole through the layer. Place a 4" diameter PVC pipe sleeve filled with 3/4" pea gravel through the caliche layer to the bottom of planting pit. If layer is greater than 18" enlarge the planting pit as indicated in the details.
12. Prior to commencement of maintenance period contractor shall submit a watering/maintenance schedule to the Landscape Architect for approval.

ROOT BARRIER NOTE:

All trees planted within five feet (5') of a sidewalk or wall shall have a root barrier installed adjacent to the sidewalk or wall extending a minimum of fifteen feet (15') in either direction from the center of the tree. No trees shall be planted within three feet (3') of the Right of Way (ROW).

SITE VISIBILITY ZONE

All shrubs planted within the site visibility zone shall not exceed two feet (2').
