CONDITIONS OF THE PERMIT

- Any type of retaining wall must be engineered by a Civil or Structural Engineer
- If a home owner takes out the Building Permit and if the owner sublets the work to a Contractor then the Contractor must take out the permit and pay for it
- No fence or wall can be built on City property or rights of way but this is not intended to preclude construction within utility easements if utilities will not be damaged or made inaccessible
- The fence or wall shall not enclose any water meter light standard or fire alarm box and shall not come closer than 24' from the nearest fire hydrant outlet
- Department Inspectors must approve footings before concrete is poured and block wall reinforcing before grouting is done
- Maximum height of any wall or fence is 6' side and rear yards 4' maximum in front yard with the vertical surface above the height of 2' - 50' open
- I must not obstruct required onsite parking space (2 spaces for each dwelling unit) by the erection of this fence or wall
- This fence or wall shall not block the natural flow of surface water across the property nor shall it divert the flow of surface waters onto another's property
- By the signing of this application I herewith agree to the requirements outlined above
