CONDITIONS OF THE PERMIT

- I agree to call the City Building Department for inspections before concrete is poured before or after wall and sheathing inspection
- I agree that when the job is completed that I will call for final inspection before occupancy
- I agree to perform all construction according to City Ordinance and Building Code
- The Contact sheet below denotes a threat from the owner to sign his behalf and that the owner is aware of all elements of this application and permit. Separate permits must be taken out for work outlined in this agreement.
- I have read and understand the conditions of this application and permit. I hereby state that the information I have supplied on this application is true and correct.

Applicant hereby certifies that the information provided is true and correct.

City of Las Vegas
Department of Building & Safety
400 East Stewart Avenue
Las Vegas NV 89101

Attn Mr Bob Wagner
Chief Electrical Inspector

Re Bridgeport Village Shopping Center
and Meyers Market

Dear Bob

As you are aware Mojave Electric was the electrical contractor on these projects and did so under our permit number 91-098760 dated 02/28/91 for Bridgeport Village and permit number 91-124692 dated 10/29/91 for Meyers Market (Ed & Ralph s Market) We still have some connection work left to perform in the Meyers Market space

We were informed by various sources on the project that the owner for some reason had brought another electrical contractor on to the project to work over the weekend of May 30 1992 to perform additional electrical work We have been informed they had disconnected quite a few pieces of existing equipment and circuiting for future equipment and had reconnected some new equipment that was over and above the scope of the original contract Some additional electrical work was done in the area of the island which has never been installed to this date

We would like to go on record as of this date that any work that Sun Electric and its owner Mike Johnson has performed on this project totally cancels the warranty of Mojave Electric and the responsibility of Mojave Electric with regard to this project

As you are aware this project is also at the point where no additional equipment can be hooked up without the addition of a new 400 AMP (or more) service We would like to go on record as of this date that the engineers for our project had stated that no additional equipment was to be added without this additional service being installed
