INSPECTION REQUESTED 115 - Block Wall					
Block walls on either side appear to be spreading at joints. Movement may be due to ground raising, or improper footing or grout and steel placement. Recommend meeting with block wall contractor and developer to verify construction of wall. It appears that 2-3 additional courses have been added to the original wall

Block Wall

Met with Cedco Masonry's Mike Davis, and homeowner regarding block wall. Upon examination, one pilaster found ungrouted - contractor to fix within 10 days. North wall has been raised two courses from original, by someone other than owner. Large crack in north wall appears to be due to raise in soil or base of wall. South side wall beginning to raise in similar fashion.
