Attn: Bill Whittle

Subject: Proposed Tunnel Structure

Dear Bill:

Pursuant to our discussion of last week I am prepared to work on the design of the tunnel structure which you have shown me in photographs.

I understand that the City of Las Vegas wants a letter from an engineer stating that the structure is adequate. That requirement can be met but my work schedule is such that it will be many days before I can complete calculations that will allow me to make those statements.

I cannot foresee any problems in either the design or in the details that you are preparing however the schedule will not bend, weaken, or break so please bear with me.

It is envisioned that the calculations will be prepared in a fashion that lend themselves to future sets of Standard Plans; that is, plans of such a repetitious nature that one set will suffice for your work in the near future.

Please let me know if you have any questions.

Sincerely,

William de la Garza, PhD

This letter is acceptable to continue work on 1850 Terra Vista since de la Garza has reviewed photos of project.

Attn: Bill Whittle

Subject: Proposed Tunnel Structure

Dear Bill:

Pursuant to our discussion of last week I am prepared to work on the design of the tunnel structure which you have shown me in photographs.

I understand that the City of Las Vegas wants a letter from an engineer stating that the structure is adequate. That requirement can be met but my work schedule is such that it will be many days before I can complete calculations that will allow me to make those statements.

I cannot foresee any problems in either the design or in the details that you are preparing however the schedule will not bend, weaken, or break so please bear with me.

It is envisioned that the calculations will be prepared in a fashion that lend themselves to future sets of Standard Plans; that is, plans of such a repetitious nature that one set will suffice for your work in the near future.

Please let me know if you have any questions.

Sincerely,

William de la Garza, PhD

*This letter is acceptable to continue work on 1850 Terra Vista
since de la Garza has reviewed photos of project.*

Approval for the work under this permit will be given only after refuse and debris have been removed from job site and public right of way.

I state that I am familiar with the effective ordinances of the City of Las Vegas, Nevada and the effective Statutes of the State of Nevada covering construction and use of the above type; I agree to perform said construction in conformity therewith. I further agree that issuance of a permit on the above application will not excuse me from conforming with the said Ordinances and Statutes despite any errors on the part of the building inspector or engineer in checking plans and application herewith.

All swimming pools must be fenced before the pool is filled with water. No electrical lines shall cross over a pool. Applicants must have separate plan showing location of power pole, proposed or existing fencing and location of swimming pool. I agree to repair any utility line, if damaged during excavation work. I have read and understand the contents of above application. I hereby state that the same are true and correct.
