ThermaGlas®

Loose Fill Insulation 03M04250

Stated R-Value is provided by installing the required number of bags per 1,000 sq. ft. at a thickness not less than the label minimum thickness. Installation of the required number of bags may yield more than the specified minimum thickness and minimum sq. ft. weight. Failure by the installer to provide both the required bags and at least the minimum thickness will result in lower insulation R-Value.

*Nominal installed thickness is provided as a guide to installers due to the variabilities (product, equipment, application technique, environment) in installing loose fill insulation. Actual thickness will vary depending on conditions at the time of installation.

R means resistance to heat flow. The higher the R-value, the greater the insulating power.

The following products have been installed as specified above:
