WARNINGS

1. Read all General Notes and Warnings before construction of truss.
2. Before erection on tractor should be advised of all General Notes and Warnings before construction commences.
3. All compression web bracing must be installed where shown.
4. All lateral force resisting elements such as temporary and permanent bracing must be designed and provided by designer of complete structure. Computrus assumes no responsibility for such bracing.
5. No load should be applied to any component until after all bracing and fasteners are complete and at no time shall be applied greater than design load be applied to any component.
6. Computrus has no control over and assumes no responsibility for the fabrication, handling, shipment and installation of components.
7. This design is furnished subject to the limitations on truss designs set forth by the Truss Plate Institute in Bracing Wood Trusses BWT96. A copy of which will be furnished by Computrus upon request.

General Notes, unless otherwise noted

1. Design assumes the top chord bottom chord is bolted and clamped at all joints and at 1' O.C. respectively.
2. All repair to damaged members, re-orientation of members shown + shall be done. The responsibility of the responsible party for the repair shall be assumed. It shall be the responsibility of the designer to provide all repair and all other conditions of use.
3. Truss shall be built in accordance with all applicable codes and standards.
4. Design assumes all bracing is designed and installed in accordance with the design.
5. Truss shall be installed on level ground and placed on level surface.
6. Truss shall be installed in accordance with the design.
7. Truss shall be installed in accordance with the design.
8. Truss shall be installed in accordance with the design.
9. Truss shall be installed in accordance with the design.
10. Truss shall be installed in accordance with the design.
11. Truss shall be installed in accordance with the design.
