PART I -- PROJECT IDENTIFICATION

INITIAL INSTRUCTIONS:

1. If an audit indicates that any part of a HCP Compliance Report has been intentionally falsified, the project will be excluded from coverage by the Section 10(a)(1)(b) permit for the duration of the permit period. Moreover, if take occurred on such property, it was not incidental to an otherwise lawful activity and will be referred directly to the U.S. Fish and Wildlife Service for prosecution under the terms of the Federal Endangered Species Act (ESA). Violations of Section 9 of the ESA are punishable by fines of up to \$25,000 and/or by up to six months in jail for each instance of take.
2. Survey results must be reported on Part II of the HCP Compliance Report and will be considered valid for a maximum of 90 days.
3. If tortoise removal is required, the results must be reported on Part III of the HCP Compliance Report and will be valid for a maximum of 60 days.
4. Instructions and protocol pertaining to this report, including tortoise survey and removal procedures, are printed on the cover sheet of this form.

All project proponents in the permit area are required to complete this report and submit it to the appropriate local agency. Authorization to develop property will not be given by the local agency until this form has been submitted and is accepted as complete. If a survey is required there is a seven working day waiting period following acceptance of the completed survey report before permits can be issued. The project proponent is responsible for securing all signatures required below and for providing all required information.
