Gentlemen:

The following information is furnished in response to a request from your office for our inspection of a block fence which was built by Rickey Morales for DASCO, Inc. at Smoke Ranch Road and Michael Way:

Building Inspector Arlie J. Goth and the writer accordingly inspected several pilasters and the fence between the pilasters and we found there is no vertical steel or grout. Also, several of the pilasters which have a thin cement cap sound hollow and may not be grouted.

One section of the fence along Auburn Street is dangerous and should be removed and rebuilt before someone gets hurt.

Rickey Morales shall be required by the Department of Building and Safety to place vertical steel in all pilasters and block fences which do not have the steel. It must also be grouted.

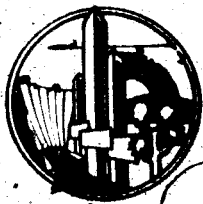

The fence which has been damaged by the failure to place vertical steel and grout must also be repaired.

Very truly yours,

H. T. ELDER, Director
Department Building and Safety
