DIRECTOR,  
DEPARTMENT OF BUILDING AND SAFETY

BUILDING INSPECTOR,

TRAILER COURT AT  
706 WEST BONANZA ROAD

CITY MANAGER  
PLANNING DEPARTMENT  
AIKEN  
FILE

I received this complaint September 24, 1963. Not being able to understand too clearly the nature of the complaint, I contacted Mr. R. De Fonda of 710 West Bonanza Road by telephone. During my conversation with Mr. Fonda, I found the complaint concerned the sanitation facilities in the trailer.

I contacted Mr. Schmutz of the Clark County Health Department and asked him to make a joint inspection. He agreed and will send me a copy of his report. I also contacted Mr. George Judd of the Las Vegas Fire Department and requested that he should also make an inspection as I found one building completely gutted by fire. They had a meter box attached to this building that was still working. I consider this to be a dangerous condition which could lead to another fire. These buildings are all substandard and should be condemned.
