Dear Ms. McDonald:

Re: 2318 Lexington 01B-010-360

In a recent inspection of the subject building by this department (Building and Safety) at the request of the Fire Prevention Division it was noted that the building is a complete state of disrepair and is open to the public and is also creating a hazardous and dangerous condition. Therefore, from the date of receipt of this letter you have (30) days to either repair and remodel and clean up or it will be taken before the City Commission for their approval to remove the existing conditions and lease the property for payment. It has been noted that you have in the past ignored all letters of intent from the Fire Prevention Division, so we have no other recourse but to proceed in the above outlined method.

Yours truly,

Lee Lenmon

Lee Lenmon, Sr. Bldg. Inspector
Division of Building and Safety
