REFERENCE: Bavington Court
Plan Check No. C-2
Addendum No. 1 (Plan Check)

Dear Sirs:

In regard to the above referenced project, it would appear that the plans do not satisfy the requirements for light per Section 1205.b of the 1988 U.B.C. The plans submitted have an error in them. Door type 'A' is scheduled as a 3'-0" x 6'-8" solid core wood door, and in fact should be a 3'-0" x 6'-8" multi-pane glass French door. The area of glass in the door is 2'-0" x 6'-0" or 12 square feet combined with the 24 square feet of the living room window, now gives us a total of 36 square feet of glass area which satisfies the requirement for both Model 915 and 1067.

This letter should serve as an addendum to our submittal for plan check of this project.

Thank you for your attention in this matter.

Sincerely,

Robert E. Reid
