INTER-OFFICE MEMO
DEPARTMENT OF BUILDING AND SAFETY

DATE: August 12, 1959

TO: R. P. SAUER, DIRECTOR OF PUBLIC WORKS
FROM: HAROLD A. LARSON, SUPERINTENDENT, BUILDINGS AND SAFETY DIVISION
SUBJECT: ADEQUATE SECURING OF TEAR DROPS ON MARQUE OF BUILDING 1320 - 1336
LAS VEGAS BOULEVARD, SOUTH

The approximate weight of each of the existing tear drops is 1500 pounds. To correct the weakness of the original attachment, for each tear drop two power-driven bolts were fired into the under side of the concrete roof. Each bolt has a pullout value of 5,000 pounds. Attached to this bolt is a Z shape steel strap $\frac{1}{4}$ " x $1\frac{1}{2}$ " wide acting as a hook arrangement. The safety factor on this additional installation is more than adequate to stabilize each of the tear drops on this marque. This work was completed on Monday, August tenth.
