**CITY OF LAS VEGAS
INTER-OFFICE MEMORANDUM**

DATE

October 2, 1997

TO: Department of Planning & Development	FROM: Richard D. Goecke, Director Department of Public Works 
SUBJECT: PM-14-97 (Amends Recorded Parcel Map File 25, Page 93) L. Steven Marx, et al (NEC 23rd Street & Searles Avenue)	COPIES TO: John McNellis, Anderson, Edelman, Development Coordination Ed Byrge, Right-of-Way Chuck Turk, Land Development (with B&T's letter) Rita Lumos, Survey (FM, PM, & A's only) Gordon Derr, Traffic Engineering

REVISED COMMENTS: -- These comments supercede all previous memos\comments:

NOTE: We note that this parcel map is amending the property line between lots 1 and 2 of recorded parcel map file 25, page 93.

1. Based on the information contained in the letter from Baughman and Turner dated August 26, 1997, no drainage plan/study is required prior to the recordation of this parcel map. *[Although we will accept the consultant's rationale for why a drainage plan/study is not required in conjunction with this parcel map (which is amending the common property line between Lots 1 and 2), we question whether Item #1 in their letter will actually be adhered to. Based on the 100 foot long eastward-extending finger of property protruding from the east edge of Lot #1, we question whether this "finger" will actually be graded/developed to back drain through Lot #1 out to Searles Avenue. With the area to the southeast of this parcel map site already developed, it appears more reasonable to expect this "finger" will have little functional use in conjunction with the future development of Lot #1. As such, the "finger" will most likely become a dumpster or landscape area with questionable grading and drainage. Because of the proposed amended lot line layout, it appears more reasonable that an outlet drainage easement along the south portion of Lot #2 should be granted on this parcel map. Also, based on the site plan of Lot #2 detailed with AR-3-97, it appears that an outlet drainage easement could be easily accommodated on Lot #2.]*

2. The construction of all incomplete half-street improvements on 23rd Street and Searles Avenue adjacent to Lot #1 of this parcel map are not required at this time nor are bonds required for their future installation. All needed street improvements adjacent to Lot #1 shall be determined and imposed concurrent with the future development of Lot #1. *(We are currently unaware of any development proposals for Lot #1.)*

3. Full street improvements on Eastern Avenue adjacent to Lot #2 already exist. Such improvements may need to be modified and/or upgraded concurrent with construction on Lot #2. Lot #2 has recently been approved for development subject to the conditions of approval of Aesthetic Review AR-3-97. No performance guarantees for such street improvement changes/upgrades are required in conjunction with this parcel map.

4. These revised conditions of approval are valid only for a period of one year. The City of Las Vegas reserves the right to modify or add conditions of approval if this parcel map is not recorded within one year of the date of this revised memo. Construction plans approved subsequently are valid only for a one year period following the date of this revised memo unless Public Works allows the plans to be valid for a longer period of time.

Attn.: Mr. John McNellis

Subject: PM #14-97

Dear Mr. McNellis:

As requested, we have investigated the flood potential to the parcel located north of Searles on the west side of Eastern and find no adverse conditions associated with the site.

We feel, in fact, that a drainage study is not necessary and request that this letter serve to meet that condition of the amended parcel map. We feel a drainage study is not required because:

- 1) On-site generated flows have an unhindered discharge point at the southeast corner of the site eliminating the need for a drainage easement across Lot 2.
- 2) Dennis Stransky of City of Las Vegas Flood Control has already reviewed and accepted the minimum finished floor based on the "twice the depth" in Eastern criteria.
- 3) The site is located in a Zone X which has been determined to be outside the 100-year flood plain.
- 4) Off-site storm water is carried east past the site in Hinkle or Searles. A high point in 23rd Street prevents a build up of flow along the west property line.

We hope this letter has addressed the concerns listed in the conditions for PM 14-97. If you have any further questions, please feel free to contact this office.

Sincerely,
BAUGHMAN & TURNER, INC.

(NEC 23rd Street & Searles Avenue)

COPIES TO:

John McNellis, Anderson, Edelman, Development Coordination
Ed Byrge, Right-of-Way
Chuck Turk, Land Development
Rita Lumos, Survey (FM, PM, & A's only)
Gordon Derr, Traffic Engineering

1. Prior to the recordation of this parcel map, a Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works. No building or grading permit can be issued until this drainage plan/study is received and approved. The drainage plan/study is required at this time to determine what elevation structures should be built at to achieve a minimum protection from floodwater damages, and also to determine what drainage easements, if any, are necessary and are needed to be noted on this parcel map prior to recordation. Provide and improve all drainageways as recommended in the approved drainage plan/study.
2. The construction of all incomplete half-street improvements adjacent to Lot #1 of this amended parcel map shall not be requested at this time. All needed street improvements shall be determined and Imposed concurrent with the future development of Lot #1. *We note that this amended parcel map amends recorded parcel map file 25, page 93, and that no development of Lot #1 is planned at this time.*
3. The future development of Lot #2 shall be in accordance with the conditions of approval for Aesthetic Review AR-3-97. No performance guarantees for such requirements are required in conjunction with this amended parcel map.
4. These conditions of approval are valid only for a period of one year. The City of Las Vegas reserves the right to modify or add conditions of approval if this parcel map is not recorded within one year of the date of this memo. Construction plans approved subsequently are valid only for a one year period following the date of this memo unless Public Works allows the plans to be valid for a longer period of time.
