This property is located on the north side of Builders (Street), west of Mojave Road in Zoning Districts C-1 and M. The applicant proposes a division of one parcel into two and there is an existing 50' x 80' concrete building on parcel 1.

The memo from the Department of Public Services indicates several corrections to be made to the map, all of which have been done by the surveyor. As is noted in the Public Service's memo, respect should be given to the parking layout for Parcel #2 at the time of building permit application. It has been determined that parking for Parcel #1 is adequate for the existing structure.

Staff recommends approval of the Parcel Map subject to requirements of all City departments and State Subdivision Statutes.

COPIES TO:

Your memorandum of May 15, 1978, requested comments from the Public Services Department on the submittal of a Parcel map, PM-23-78 by Robert Rhine.

✓ This parcel map has been determined to be accurate from the standpoint of survey accuracy and retraceability. However, reference to the curb, gutter, and sidewalk should not be made on the parcel map. The existing 12.5 foot alley right of way adjacent to the rear of these lots should be shown.

By splitting off Parcel No. 1 from the overall parcel the parking area is limited to one employee giving due regard to the area not occupied by the building. With respect to Parcel No. 2 it would be required that a parking layout be submitted at the time of building permit application.
