COPIES TO:

Rita Lumos, Survey (FM, PM, & A's only)
Gordon Derr, Traffic Engineering

1. Construct a 14'-wide lane of asphalt paving next to the centerlines of Rocky Avenue and Four Views Street adjacent to the overall parcel map site or, prior to recordation of this parcel map, contribute cash monies to the City equal to the estimated cost of these required improvements [for this site $\$8/\text{LF} \times (335' + 323') = \$5,264.00$]. The actual installation of single-lane paving improvements shall be subject to the approval of the Land Development Section and the City Engineer. All monies collected in lieu of improvements, plus all accrued interest, will be held by the City until sufficient neighborhood-wide funding is available to allow the City to construct 28'-wide non-permanent "Goecke" paving, centered on the street centerline, of a minimum length of one block (i.e., from one street intersection to the next nearest street intersection). Only cash monies are accepted in lieu of construction of improvements for this item; no bonds nor other performance security methods are acceptable.
2. Prior to the recordation of this parcel map, sign a Covenant Running with Land agreement for the possible future installation of half-street improvements (including curb and gutter, sidewalks, streetlighting, permanent paving and possibly fire hydrants and sewers) on Rocky Avenue and Four Views Street adjacent to this site. The Covenant agreement must be recorded with the County Recorder and a copy of the recorded document must be provided to the City prior to the release of this parcel map for recordation.
3. Prior to the recordation of this parcel map, a Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works. No building or grading permit can be issued until this drainage plan/study is received and approved. The drainage plan/study is required at this time to determine what elevation structures should be built at to achieve a minimum protection from floodwater damages, and also to determine what drainage easements, if any, are necessary and are needed to be noted on this parcel map prior to recordation.
4. Prior to the recordation of this parcel map, all requirements must be complied with or such future compliance must be guaranteed by an approved performance security method(s), if allowed.
5. These conditions of approval are valid only for a period of one year. The City of Las Vegas reserves the right to modify or add conditions of approval if this parcel map is not recorded within one year of the date of this memo. Construction plans approved subsequently are valid only for a one year period following the date of this memo unless Public Works allows the plans to be valid for a longer period of time.

COMMENT: We note the County's APN map for this area does not acknowledge that the west half of Four Views Streets has ever been dedicated. The City of Las Vegas Surveyor may have additional survey information for this general area that may prove different. Incorporate all City Surveyor comments into the final parcel map mylar and show dedication of Four Views Street if necessary.
