

THE LAKES ASSOCIATION

ARC APPROVAL & NOTICE

The Architectural Review Committee has reviewed R. Mahood, 3024 Waterside Cir. and specifications for the new home on Lot 76, Blk. 3, Lakeview finds that the plans are in substantial compliance and comply with the Architectural Guidelines, noting the following conditions and requirements: Approve covered patio subject to Las Vegas Building Dept. (Building Dept. may not approve due to set back requirements.) Note: If this is not the last residence on the Lake arm, adjacent to a common area, and will not obstruct anyone's water view, the plan would have been rejected.

For protection of individual homeowners, the boats, and the lake, boats must have boats approved for lake use, and no boat will be allowed unless an approved dock has been built. No boats are allowed to dock at the seawall, regardless of draft depth, and may only dock at approved docks. Docks must cantilever out over the water a minimum of 10' or a maximum of 6', and a minimum dock width parallel to bulkhead be 10'.

With the exception of ARC Approved Boat Dock design, no structure or object can be built within the 10' easement adjacent to the bulkhead. No structure may penetrate more than 2' below finish grade as established at 1' above sea level at the top of the bulkhead wall. No attachments be made on or to the bulkhead wall excepting those attachments as required by approved ARC dock designs.

No trees may be planted within the 10' easement from the edge of bulkhead, to control view obstruction and roots that may damage the bulkhead. Grass or low growing plants, may be planted if they do not exceed 6' in height at maturity.

No fences allowed within 15' of seawall unless they are decorative wrought iron, not to exceed 6' in height and with uprights spaced no less than 4", or more than 6" apart.

When plans are submitted for approval to the ARC, a \$500.00 cash deposit or bond is required for protection of the Lake while your property is under construction. If you have not submitted the deposit, please do so immediately, payable to West Sahara Investments, Inc. Upon completion of the work, and if no portion of the deposit has been used to repair any damage to the Lake or bulkhead, the full amount of the deposit, plus 5% will be refunded, upon notification of completion of the work and final inspection by the ARC.

You are further advised that any deviation from the approved ARC plans and specifications as it affects the size of any construction, location, or the exterior, including landscaping, must also be approved by the ARC, as well as obtaining the required City of Las Vegas Planning and Building Departments approvals and permits prior to commencement of construction. Any deviations, or changes, without prior approval may require removal of same at your own expense. ARC approval does not substitute or circumvent the required City of Las Vegas rules, regulations, and permits, as the ARC approval only applies to The Lakes Association.

Your attention is drawn specifically to Article VI, Section 2, Sub-paragraph (b), (f), and (g) of the CC&R's, which is set out on pages 21, 22 and 23 thereof.

THE LAKES ASSOCIATION

ARC APPROVAL & NOTICE

The Architectural Review Committee has reviewed R. Mahood, 3024 Waterside Cir. and specifications for the new home on Lot 76, Blk. 3, Lakeview finds that the plans are in substantial compliance and conformity with the Architectural Guidelines, noting the following conditions and requirements: Approve covered patio subject to Las Vegas Building Dept. (Building Dept. may not approve due to set back requirements.) Note: If this was not the last residence on the Lake arm, adjacent to a common area, and will not infringe on anyone's water view, the plan would have been rejected.

For protection of individual homeowners, the boats, and the lake, boats must have docks approved for lake use, and no boat will be allowed unless an approved dock has been built. No boats are allowed to dock at the seawall, regardless of draft depth, and may only dock at approved docks. Docks must cantilever out over the water a minimum of 10' or a maximum of 6', and a minimum dock width parallel to bulkhead be 10'.

With the exception of ARC Approved Boat Dock design, no structure object can be built within the 10' easement adjacent to the bulkhead may penetrate more than 2' below finish grade as established at 1' above sea level at the top of the bulkhead wall. No attachments be made on or to the bulkhead wall excepting those attachments as required by approved ARC dock designs.

No trees may be planted within the 10' easement from the edge of bulkhead, to control view obstruction and roots that may damage the lake. Grass or low growing plants, may be planted if they do not exceed in height at maturity.

No fences allowed within 15' of seawall unless they are decorative wrought iron, not to exceed 6' in height and with uprights spaced no less than 4", or more than 6" apart.

When plans are submitted for approval to the ARC, a \$500.00 cash deposit or bond is required for protection of the Lake while your property is under construction. If you have not submitted the deposit, please do so immediately, payable to West Sahara Investments, Inc. Upon completion of the work, and if no portion of the deposit has been used to repair any damage to the Lake or bulkhead, the full amount of the deposit, plus 5% will be refunded, upon notification of completion of the work and final inspection by the ARC.

You are further advised that any deviation from the approved ARC plans and specifications as it affects the size of any construction, location, or the exterior, including landscaping, must also be approved by the ARC, as well as obtaining the required City of Las Vegas Planning and Building Departments approvals and permits prior to commencement of construction. Any deviations, or changes, without prior approval may require removal of same at your own expense. ARC approval does not substitute or circumvent the required City of Las Vegas rules, regulations, and permits, as the ARC approval only applies to The Lakes Association.

Your attention is drawn specifically to Article VI, Section 2, Sub-paragraph (b), (f), and (g) of the CC&R's, which is set out on pages 21, 22 and 23 thereof.
