**RE: Proposed New Freestanding Building
Administration Site Development Review
Rancho Sierra Shopping Center
Northeast corner Craig Rd. & Rancho Dr.
Las Vegas, NV**

Gentlemen:

We are the owners of the Rancho Sierra Shopping Center. The shopping center was constructed in 1990/1991.

We are hereby requesting the approval for construction of a new 2,800 sq. ft. free-standing building.

The building will face Rancho Drive. The building elevations, colors and architectural design will be substantially identical to all the other buildings constructed in the shopping center.

The location of the proposed building is currently a portion of our asphalt parking lot.

The existing parking count for the shopping center is as follows

**Parking required: 957
Parking provided: 1,425
(see enclosed site plan)**

As you can see from the above parking counts, the addition of a new 2,800 sq. ft. free-standing building will have no impact on the parking requirements of the shopping center.

**The new total parking required: 963.
The new total parking provided: 1,412.**

Additionally, the Landscape Plan which was previously submitted and approved prior to construction of the shopping center has not been changed or modified since it's installation in accordance with the plans.

Sincerely,
