RE: Z-116-63(2)

Dear Mr. Becker:

Your request to place two 15 gallon Mexican Bird of Paradise trees in all existing planter islands located at the end of each row of parking within the existing shopping center at the northeast corner of Lake Mead Boulevard and Jones Boulevard has been administratively approved. This requirement replaces condition no. 2 imposed per the Site Development Plan Review letter signed by Rod Allison on December 19, 1997.

This action by the City of Las Vegas Planning and Development staff is final.

RE: Z-116-63(2)

Dear Bob:

We would appreciate your changing requirement (2) in your letter of December 19, 1997, to allow us to put 15 gallon Mexican Bird of Paradise trees instead of evergreen trees as the evergreen trees block the view of the center from traffic and we get complaints from store owners and customers requesting that they be removed.

We would appreciate it if this could be a staff decision rather than having to go before the council.

Thank you for your consideration. Please call me at 878-1903, Extension 6525 if you have any questions or require anything from us.

Yours truly,

FREMONT WEST SHOPPING CENTER

RE: Z-116-63(2) - Administrative Site Development Plan Review

Dear Mr. Becker:

Your request for a Site Development Plan Review on property located on the northeast corner of Lake Mead Boulevard and Jones Boulevard for a PROPOSED 11,800 SQUARE FOOT ADDITION TO AN EXISTING SHOPPING CENTER, C-1 (Limited Commercial) Zone, Size: 15.99 Acres, Ward 4 (Brown), APN: 138-24-215-006, has been reviewed by staff.

Staff has administratively APPROVED your request subject to the following:

1. Provide a minimum eight foot wide landscape planter with 24 inch box evergreen trees spaced 20 feet on center, shrubs and ground cover along the south 447 feet of the east property line as required by the Planning and Development Department.
2. Two 24 inch box evergreen trees shall be placed in all existing planter islands located at the end of each row of parking.
3. A revised site plan, indicating conformance to Conditions Number One and Two, must be submitted to and approved by the Planning and Development Department prior to the issuance of building permits for this expansion.
4. Site development to comply with all applicable conditions of approval for Z-116-63 and all other site-related actions as required by the Planning and the Development Department and the Department of Public Works.
5. Contribute \$1,500 to partially fund the future upgrade of the traffic signal system at the intersection of Jones Boulevard and Lake Mead Boulevard prior to the issuance of building or off-site permits as required by the Department of Public Works. The City reserves the right to utilize the contributed traffic signal monies for the installation or upgrade of traffic signals at any other intersection within this general vicinity which is impacted by this development and which has a more immediate need for signalization.

Mayor
Jan Laverty Jones

Councilmen
Arnie Adamsen
Michael J. McDonald
Gary Reese

City Manager
Larry K. Barton

6. The final layout of the proposed parking lot, driveways, and on-site circulation shall meet the approval of the Traffic Engineering representative in Land Development prior to the issuance of any permits as required by the Department of Public Works. All new driveways or modifications to existing driveways shall be designed, located and constructed in accordance with Standard Drawing #222a.
7. Remove all substandard public street improvements and unused driveway cuts adjacent to this site, if any, and replace with new improvements meeting current City Standards prior to occupancy of this site as required by the Department of Public Works.
8. An addendum to the previously approved Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits, whichever may occur first, as required by the Department of Public Works. Provide and improve all drainageways as recommended in the approved drainage plan/study.
9. All mechanical equipment, air conditioners and trash areas shall be screened from view from the abutting streets.
10. All City Code requirements and design standards of all City departments must be satisfied.
11. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply shall be installed and shall be functioning prior to construction of any combustible structures.
12. Where new mains are extended along streets and fire hydrants are not needed of protection of structures, hydrants shall be spaced at a maximum distance of 1,000 feet to provide for transportation hazards.
13. Provide plans showing accessible exterior routes from public transportation stops, accessible parking, passenger loading zones and public sidewalks to the accessible building entrance(s) with submittal of plans for building permits as required by the Planning and Development Department. Accessible routes shall have running slopes and cross slopes in accordance with the applicable code.

This action by the City of Las Vegas Planning and Development staff is final. If you have any questions please do not hesitate to contact me at (702) 229-2129.

Very truly yours,

Rod Allison, Senior Planner
Current Planning Division

ADMINISTRATIVE REVIEW:

Z-116-63(2) - FREMONT WEST SHOPPING CENTER - Request for a Site Development Plan Review on property located on the northeast corner of Lake Mead Boulevard and Jones Boulevard for a PROPOSED 11,800 SQUARE FOOT ADDITION TO AN EXISTING SHOPPING CENTER, C-1 (Limited Commercial) Zone, Size: 15.99 Acres, Ward 4 (Brown), APN: 138-24-215-006.

APPLICATION REQUEST:

This is a request for a Site Development Plan Review of a proposed 11,800 square foot addition to an existing shopping center on a 15.99 acre parcel located on the northeast corner of Lake Mead Boulevard and Jones Boulevard.

BACKGROUND DATA:

- 09/25/63 The City Council approved a rezoning to C-1 (Limited Commercial) for a shopping center on this site (Z-116-63).
- 07/13/89 The Planning Commission approved a Plot Plan and Building Elevation Review for a credit union located in the south portion of this site (Z-116-63).
- 03/23/95 The Planning Commission approved a Plot Plan and Building Elevation Review for a Burger King restaurant within the shopping center (Z-116-63[1]).

DETAILS OF APPLICATION REQUEST:

Site Area:	15.99 Acres	
Square footage		
Existing building:	13,440	Square Feet
New building :	11,800	Square Feet
Height of new building	17	Feet Six inches
Parking Required	213	Spaces
Parking Provided	242	Spaces

This site is currently developed with a 13,440 square foot retail building, located in the north portion of the site. A new building, 11,800 square feet in size, is proposed in the east portion of the site. A trash enclosure is shown adjacent to the east side of the new building, 50 feet from an adjacent apartment complex. Access to the shopping center is provided by an existing driveway to Lake Mead Boulevard and two driveways to Jones Boulevard. Eighty-eight parking spaces are shown near the existing building. Thirty-six spaces are depicted adjacent to the new building. The remaining 118 spaces are contained within four parking rows shown in the central portion of the site. Landscape planters are shown along the street frontages. The site plan indicates six existing planters, located along the east property line, are to be removed as part of this expansion. In addition, four planters located in the parking lot are to be removed.

The elevations indicate the new building will have a stucco exterior and a concrete tile roof that matches the existing structure.

FINDINGS:

The proposed expansion of the shopping center is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan. The subject site is physically suited for the type and intensity of land use being proposed. Lake Mead Boulevard, a Primary Street, and Jones Boulevard, a Secondary Street, provide access to the property and are adequate in size to meet the requirements of the proposed use. Approval of this Site Development Plan, with staff's conditions, will not be inconsistent with or compromise the public health, safety and welfare or the overall objectives of the General Plan.

Staff recommends additional landscaping be provided along the east property line to replace the planters that are to be removed as part of this expansion.

A landscape plan approved by the Planning and Development Department on January 29, 1986 indicated a 15 gallon evergreen tree was to be provided in each planter located in the central parking area. A field check conducted by the Planning and Development Department on October 14, 1997 revealed no 15 gallon trees on site.

STAFF RECOMMENDATION: APPROVAL, subject to the following:

1. Provide a minimum eight foot wide landscape planter with 24 inch box evergreen trees spaced 20 feet on center, shrubs and ground cover along the south 447 feet of the east property line as required by the Planning and Development Department.
2. Two 24 inch box evergreen trees shall be placed in all existing planter islands located at the end of each row of parking.
3. A revised site plan, indicating conformance to Conditions Number One and Two, must be submitted to and approved by the Planning and Development Department prior to the issuance of building permits for this expansion.
4. Site development to comply with all applicable conditions of approval for Z-116-63 and all other site-related actions as required by the Planning and the Development Department and the Department of Public Works.

5. Contribute \$1,500 to partially fund the future upgrade of the traffic signal system at the intersection of Jones Boulevard and Lake Mead Boulevard prior to the issuance of building or off-site permits as required by the Department of Public Works. The City reserves the right to utilize the contributed traffic signal monies for the installation or upgrade of traffic signals at any other intersection within this general vicinity which is impacted by this development and which has a more immediate need for signalization.
6. The final layout of the proposed parking lot, driveways, and on-site circulation shall meet the approval of the Traffic Engineering representative in Land Development prior to the issuance of any permits as required by the Department of Public Works. All new driveways or modifications to existing driveways shall be designed, located and constructed in accordance with Standard Drawing #222a.
7. Remove all substandard public street improvements and unused driveway cuts adjacent to this site, if any, and replace with new improvements meeting current City Standards prior to occupancy of this site as required by the Department of Public Works.
8. An addendum to the previously approved Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits, whichever may occur first, as required by the Department of Public Works. Provide and improve all drainageways as recommended in the approved drainage plan/study.
9. All mechanical equipment, air conditioners and trash areas shall be screened from view from the abutting streets.
10. All City Code requirements and design standards of all City departments must be satisfied.
11. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply shall be installed and shall be functioning prior to construction of any combustible structures.
12. Where new mains are extended along streets and fire hydrants are not needed of protection of structures, hydrants shall be spaced at a maximum distance of 1,000 feet to provide for transportation hazards.
13. Provide plans showing accessible exterior routes from public transportation stops, accessible parking, passenger loading zones and public sidewalks to the accessible building entrance(s) with submittal of plans for building permits as required by the Planning and Development Department. Accessible routes shall have running slopes and cross slopes in accordance with the applicable code.

RE: Z-116-63(2) - Administrative Site Development Plan Review

Dear Mr. Becker:

Your request for a Site Development Plan Review on property located on the northeast corner of Lake Mead Boulevard and Jones Boulevard for a PROPOSED 11,800 SQUARE FOOT ADDITION TO AN EXISTING SHOPPING CENTER, C-1 (Limited Commercial) Zone, Size: 15.99 Acres, Ward 4 (Brown), APN: 138-24-215-006, has been reviewed by staff.

Staff has administratively **APPROVED** your request subject to the following:

- ① Provide a minimum eight foot wide landscape planter with 24 inch box evergreen trees spaced 20 feet on center, shrubs and ground cover along the south 447 feet of the east property line as required by the Planning and Development Department.
- ② Provide one additional planter island, 6 feet by 38 feet in size, midway between the existing planter islands of each of the four parking rows located in the central portion of the site. Two 24 inch box evergreen trees shall be placed in all existing and proposed planter islands.
3. A revised site plan, indicating conformance to Conditions Number One and Two, must be submitted to and approved by the Planning and Development Department prior to the issuance of building permits for this expansion.
4. Site development to comply with all applicable conditions of approval for Z-116-63 and all other site-related actions as required by the Planning and the Development Department and the Department of Public Works.
5. Contribute \$1,500 to partially fund the future upgrade of the traffic signal system at the intersection of Jones Boulevard and Lake Mead Boulevard prior to the issuance of building or off-site permits as required by the Department of Public Works. The City reserves the right to utilize the contributed traffic signal monies for the installation or upgrade of traffic signals at any other intersection within this general vicinity which is impacted by this development and which has a more immediate need for signalization.

Mr. Ernest Becker, Jr.

ADMINISTRATIVE REVIEW:

Z-116-63(2) - FREMONT WEST SHOPPING CENTER - Request for a Site Development Plan Review on property located on the northeast corner of Lake Mead Boulevard and Jones Boulevard for a PROPOSED 11,800 SQUARE FOOT ADDITION TO AN EXISTING SHOPPING CENTER, C-1 (Limited Commercial) Zone, Size: 15.99 Acres, Ward 4 (Brown), APN: 138-24-215-006.

APPLICATION REQUEST:

This is a request for a Site Development Plan Review of a proposed 11,800 square foot addition to an existing shopping center on a 15.99 acre parcel located on the northeast corner of Lake Mead Boulevard and Jones Boulevard.

BACKGROUND DATA:

- 09/25/63 The City Council approved a rezoning to C-1 (Limited Commercial) for a shopping center on this site (Z-116-63).
- 07/13/89 The Planning Commission approved a Plot Plan and Building Elevation Review for a credit union located in the south portion of this site (Z-116-63).
- 03/23/95 The Planning Commission approved a Plot Plan and Building Elevation Review for a Burger King restaurant within the shopping center (Z-116-63[1]).

DETAILS OF APPLICATION REQUEST:

Site Area:	15.99 Acres	
Square footage		
Existing building:	13,440	Square Feet
New building :	11,800	Square Feet
Height of new building	17	Feet Six inches
Parking Required	213	Spaces
Parking Provided	242	Spaces

This site is currently developed with a 13,440 square foot retail building, located in the north portion of the site. A new building, 11,800 square feet in size, is proposed in the east portion of the site. A trash enclosure is shown adjacent to the east side of the new building, 50 feet from an adjacent apartment complex. Access to the shopping center is provided by an existing driveway to Lake Mead Boulevard and two driveways to Jones Boulevard. Eighty-eight parking spaces are shown near the existing building. Thirty-six spaces are depicted adjacent to the new building. The remaining 118 spaces are contained within four parking rows shown in the central portion of the site. Landscape planters are shown along the street frontages. The site plan indicates six existing planters, located along the east property line, are to be removed as part of this expansion. In addition, four planters located in the parking lot are to be removed.

The elevations indicate the new building will have a stucco exterior and a concrete tile roof that matches the existing structure.

FINDINGS:

The proposed expansion of the shopping center is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan. The subject site is physically suited for the type and intensity of land use being proposed. Lake Mead Boulevard, a Primary Street, and Jones Boulevard, a Secondary Street, provide access to the property and are adequate in size to meet the requirements of the proposed use. Approval of this Site Development Plan, with staff's conditions, will not be inconsistent with or compromise the public health, safety and welfare or the overall objectives of the General Plan.

Staff recommends additional landscaping be provided along the east property line to replace the planters that are to be removed as part of this expansion. Planter islands should be provided in the central parking area to replace the four islands to be removed.

A landscape plan approved by the Planning and Development Department on January 29, 1986 indicated a 15 gallon evergreen tree was to be provided in each planter located in the central parking area. A field check conducted by the Planning and Development Department on October 14, 1997 revealed no 15 gallon trees on site.

STAFF RECOMMENDATION: APPROVAL, subject to the following:

1. Provide a minimum eight foot wide landscape planter with 24 inch box evergreen trees spaced 20 feet on center, shrubs and ground cover along the south 447 feet of the east property line as required by the Planning and Development Department.
2. Provide one additional planter island, 6 feet by 38 feet in size, midway between the existing planter islands of each of the four parking rows located in the central portion of the site. Two 24 inch box evergreen trees shall be placed in all existing and proposed planter islands.
3. A revised site plan, indicating conformance to Conditions Number One and Two, must be submitted to and approved by the Planning and Development Department prior to the issuance of building permits for this expansion.
4. Site development to comply with all applicable conditions of approval for Z-116-63 and all other site-related actions as required by the Planning and the Development Department and the Department of Public Works.

5. Contribute \$1,500 to partially fund the future upgrade of the traffic signal system at the intersection of Jones Boulevard and Lake Mead Boulevard prior to the issuance of building or off-site permits as required by the Department of Public Works. The City reserves the right to utilize the contributed traffic signal monies for the installation or upgrade of traffic signals at any other intersection within this general vicinity which is impacted by this development and which has a more immediate need for signalization.
6. The final layout of the proposed parking lot, driveways, and on-site circulation shall meet the approval of the Traffic Engineering representative in Land Development prior to the issuance of any permits as required by the Department of Public Works. All new driveways or modifications to existing driveways shall be designed, located and constructed in accordance with Standard Drawing #222a.
7. Remove all substandard public street improvements and unused driveway cuts adjacent to this site, if any, and replace with new improvements meeting current City Standards prior to occupancy of this site as required by the Department of Public Works.
8. An addendum to the previously approved Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits, whichever may occur first, as required by the Department of Public Works. Provide and improve all drainageways as recommended in the approved drainage plan/study.
9. All mechanical equipment, air conditioners and trash areas shall be screened from view from the abutting streets.
10. All City Code requirements and design standards of all City departments must be satisfied.
11. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply shall be installed and shall be functioning prior to construction of any combustible structures.
12. Where new mains are extended along streets and fire hydrants are not needed of protection of structures, hydrants shall be spaced at a maximum distance of 1,000 feet to provide for transportation hazards.
13. Provide plans showing accessible exterior routes from public transportation stops, accessible parking, passenger loading zones and public sidewalks to the accessible building entrance(s) with submittal of plans for building permits as required by the Planning and Development Department. Accessible routes shall have running slopes and cross slopes in accordance with the applicable code.

5. Site development to comply with all applicable conditions of approval for Z-116-63 and all other site-related actions as required by the Department of Public Works.

COMMENTS:

- a. We note that the northeast corner of Jones Boulevard and Lake Mead Boulevard is a 34.32 foot radius right-of-way, where a 54 foot is standard. However, due to the existance of private improvements associated with the existing convenience store within the area needed for the additional right-of-way, no requirement is being made at this time.

RE: SHADOW HILLS SHOPPING CENTER
Northeast corner Lake Mead and Jones

Gentlemen:

We are proposing adding a freestanding 11,800 square foot commercial building consisting of eleven, 1,000 and 1,200 square foot retail lease spaces. The building will face west to Jones Boulevard and have a Mediterranean look with three towers and individual units to have lighted signs.

Lake Mead and Jones are fully-developed right of ways. The shopping center has existing parking lot with approved landscaping including row island landscape planters at the end of each parking row.

We have provided two loading zone spaces and a refuse area 50' from the existing apartments. The number of spaces provided exceeds the number of spaces required per codes.

Your consideration in this matter would be appreciated. If you have any questions, please do not hesitate to call.

Yours truly,

FREMONT WEST SHOPPING CENTER
A NEVADA GENERAL PARTNERSHIP

Ernest A. Becker, Jr.
Agent
