MR. GENZER stated this request is for a 110 foot high cellular transmission tower and a 336 square foot equipment shelter to be located on the southwest portion of a 2.3 acre parcel. The site is currently occupied by the Fremont West Shopping Center. The submitted plot plan indicates that four foot high concrete filled iron pipes will be placed five feet apart around the perimeter of the shelter and tower site. The site will be enclosed with a gated chain link fence. The elevations indicate that the equipment shelter will have tan fiberglass composite exteriors. Staff feels that the equipment shelter and tower are compatible with the surrounding area. Staff recommended approval, subject to the conditions.

HELEN FOLEY appeared and represented Sprint Cellular. She concurred with staff's conditions.

AL BROWN, Project Manager, Sprint Cellular, appeared and represented the applicant.

This is final action.
