RAINBOW SPECIAL USE PERMIT U-0037-95

Dear Sirs,

There is an existing Off Premise Advertising (Billboard) Sign located on the subject site. These billboards, which were initially approved through Special Use Permit U-0037-95, are subject to periodic review by Planning Commission and City Council. The latest of these reviews RQR-18680 approval by the Planning Commission.

RQR-18680 is scheduled to be heard by City Council in June 2007. Our firm has been asked to examine the billboard in an effort to assure satisfactory. Prior to preparing this letter I have inspected this billboard by conducting an on-site visual observation.

This billboard has been in place now for several years. From the observation I conducted it appears to be in good condition and shows no visible cracks or damage that could affect structural integrity. It should be emphasized that this observation was strictly a visual one; we did not conduct any metallurgical or other testing of any billboard components or materials, and we did not excavate any material to inspect footings. Also, we are not attempting to certify that the structure meets current Building Code Standards. The condition of approval asks for an opinion on the "soundness" of these structures; in my opinion, based on the limitations listed above, this structure appears to meet this requirement.

GREEN VALLEY, NEVADA 89014

PHONE: 702-456-3806

FAX: 702-456-9403

It should be noted that the City conducted inspections at the time the billboards were constructed and issued electrical, footings and other partial or full approvals at that time.

Please call me if you have any questions.

Sincerely

08
