Dear Mr. Rice:

It has been determined that the co-location of three (3) antennas and re-location of three (3) antennas (total of six) at the 57'-2" centerline of an existing 60-foot tall Wireless Communication Facility, Non-Stealth Design (Monopole) located at 2021 North Rainbow Boulevard meets the standard for approval as defined in Title 19.12.010 and 19.18.020 of the Unified Development Code of the city of Las Vegas, subject to the following.

1. Conformance to the submitted site plan and elevations date-stamped February 16, 2012.
2. This approval shall be void one year from the date of final approval, unless a building permit has been issued for the proposed installation. An Extension of Time may be filed for consideration by the City of Las Vegas.
3. Any equipment located on the outside of the shelter and or building shall be painted to match the color of the exterior wall.
4. The wireless communications facility and its associated equipment and screening shall be properly maintained and kept free of graffiti at all times by the monopole owner. Failure to perform the required maintenance may result in fines and/or removal of the facility and its associated equipment. If abandoned, the property owner must obtain a demolition permit to remove the equipment within thirty (30) days of abandonment. All equipment must then be removed within six (6) months after operations at the site cease.

A Special Use Permit application will not be required prior to submittal of building permits. A copy of this letter must be included in the permit package.

If you have any questions, please contact me at (702) 229-6895.

Sincerely,

Debbie Sullivan, Planner I

RE: Verizon "LSV Smoke Ranch" Existing Wireless Facility Modification
Site Development Review Application
2021 N. Rainbow Blvd. APN 138-22-503-001

Dear Ms. Sullivan,

On behalf of Verizon Wireless please consider the attached application for a Site Development Review. This project is located on a C-1 parcel in use as part of a shopping area. The existing tower is behind the movie theatre near the Smoke Ranch overpass above US 95.

Verizon is proposing to add three antennas to the existing tower. Verizon currently has three flush mounted antennas on this tower. The additional antennas will also be flush mounted and painted to match the tower and existing antennas. The resulting Verizon antenna configuration will be six antennas. The three new antennas will be mounted so the over all height of the structure is not changed. Verizon is proposing to mount the additional antennas in a flush mount style to maintain the current profile of the tower. Please see photo simulation for further illustration.

This antenna modification is needed to provide improved coverage and bring new "LTE" technology to subscribers working in and traveling through the area. The modification is of low visual impact but will be a great benefit to network users. The existing tower, including the proposed modifications, is compatible with the uses of the area and covers key areas such as the Best of the West shopping center, a number of nearby apartment complexes on Rainbow Blvd. and on Rock Springs Dr. as well as the Health South medical offices and the surrounding medical complex.

SDR 36898 was approved January 21, 2010 for the same project but due to budget constraints, the project did not move forward and the approval has expired. If there are any questions regarding this application please contact me at (702) 338-2299 or mgibson@SLnevada.com.

Sincerely,

Melissa Gibson
Representing Verizon Wireless
