RE: ADC-47753

Parcel: 138-15-610-017

Dear Mr. Adamson:

The city of Las Vegas has determined that the proposed address change is consistent with the current addressing standards and therefore approved your request.

<u>Old</u>	<u>New</u>
2851 Business Park Court	2831 Business Park Court
2851 Business Park Court Suite 120	2831 Business Park Court Suite 120
2851 Business Park Court Suite 130	2831 Business Park Court Suite 130

The address change is effective the date of this letter and should be post no later than 60 days from the date of this letter. The Department of Planning will inform the various City departments of this action, as well as the utility companies, the U. S. Postal Service, and the Assessor's Office. Please keep a copy of this letter in your files.

Please call me at 229-6894 if you have any questions.

Sincerely,

Mark, Rex, Planner I

RE: 2851 Business Park Court
Las Vegas, Nevada

Planning Department,

As a member of the ownership, 475 Vaughn, I am requesting that the address referenced above be changed to 2831 Business Park Court. The reason is that the building next door shares the same building number which confuses medical patients. The building across the parking area to the northeast is 2851 N. Tenaya.

We feel this is very confusing and we want to assist our tenant in having their patients more easily find their offices.

Thank you for your assistance in this request.

Sincerely,

A handwritten signature in black ink, appearing to read 'Daniel R. Adamson'.

ADDITIONAL PERMITS

Planning Comments

Issue Date 11/28/2012

Print Date 11/28/2012

By acceptance of this permit, the permittee acknowledges that the information contained hereon is to the best of his/her knowledge true and correct.

FM-0042-02-12 MD

CONDITIONS OF THE PERMIT: The approval of this permit is conditional upon the agreement of the permittee that all work will be done in accordance with all the provisions of applicable ordinances and standards adopted by the city of Las Vegas and all applicable state statutes, whether or not specified herein. The issuance of this permit does not allow for any violation of codes or ordinances currently adopted by this jurisdiction. The permittee is responsible for determining the location of all property lines and easements prior to the submittal of an application for a building permit.

SUBCONTRACTOR: When mechanical, plumbing, and electrical permits are issued to the principal contractor, subcontractor registration is required to validate them. No work shall be started nor inspections made for mechanical, plumbing, and electrical work unless the properly licensed subcontractor has made such registration with the Building Department. Registration will require a PIN number issued by the Building Department. For information call 229-6251. If the contractor already has a PIN number the automated inspection request system will add the subcontractor to the record when the inspection is scheduled using their PIN.

INSPECTION: Work normally requiring inspections shall not be covered without an approved inspection. The front of this card indicates all inspection types. If you do not know which inspections to request, please ask your inspector. **Note:** Verify work is ready for inspection prior to scheduling an inspection. Additional charges may be assessed if work is not ready.

INSPECTION REQUEST: Requests for inspections must be made by 7:00 p.m. on workdays prior to the day the inspection is needed. The request can be made by calling our automated inspection request system, 229-4677, or by visiting our website at www.lasvegasnevada.gov. The system will provide instructions. You will need your PIN, address, permit number, type of inspection number (see your inspection card), and phone number to use either system. If you need to leave "special instructions" such as gate codes and contact phone numbers, requests for the inspector to call you 30 minutes prior to the inspection, or to request a same day inspection, etc., please call Dispatch at 229-6914 on the day you schedule your inspection. It is too late to call in your comments on the same day of the actual inspection. If you wish to speak to an inspector, you must call 229-6769 between 6:30-7:00 a.m.

PERMIT EXPIRATION: Every permit issued by the Building Official with respect to work governed by the technical codes shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within 180 days from the date of such permit, as documented by an approved inspection, or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days, as documented by an approved inspection. A qualifying approved inspection is a complete inspection that is passed for all aspects of the subject of the inspection and does not include "partial passed" inspections.

Any permittee holding an unexpired permit may apply for an extension of the permit. The Building Official may extend permits for a period not exceeding 180 days upon written request by the permittee showing that circumstances beyond the control of the permittee have prevented action from being taken. An administrative fee of \$53.00 will be charged for permit extensions. The Building Official may extend a permit more than once. However, no such extension shall exceed a period of two (2) years. After two (2) years, new permits shall be required with full fees at each renewal.

In order to renew action on a permit after expiration, the permittee shall request the renewal in writing and pay a new full permit.

SWIMMING POOLS: All required access barrier elements shall be in place prior to:

- Setting a manufactured pool, spa, or water feature.
- The pre-plaster inspection of a conventionally constructed pool, spa, or water feature.
- The filling with water of artificial bodies of water.

WALL/FENCES:

- The height and location of a fence, wall, and/or retaining wall shall comply with all zoning ordinances and regulations of authority having jurisdiction. *For more information, call Planning & Development at 229-6301.*
- No fence, wall, and/or retaining wall shall be placed within a right-of-way unless granted permission by the authority having jurisdiction.
- Fences, walls, and/or retaining walls shall not be constructed closer than 18 inches from the back of any light standard or 36 inches from either side. Uniform Standard Drawings Clark County Area. *For more information, call Land Development at 229-6371.*
- Clearances for gas meters or water meters shall be in accordance with published standards of the department or agency having authority. *For more information, call Southwest Gas at 365-1555 and/or the Las Vegas Valley Water District at 870-2011.*
- Fences, walls, and/or retaining walls shall not be constructed closer than 36 inches from the back or 72 inches (6 feet) from either side of a fire hydrant. *For more information, call Fire Prevention at 229-5397.*
- Fences, walls, and/or retaining walls shall have a clearance no closer than to 36 inches from any electrical transformer concrete pad. *For more information, call NV Energy at 657-4300.*
- The permit holder is responsible for verifying that all footings are properly located in relation to property lines and structure, and in compliance with the approved plans and permit.
- Concrete foundations shall not be poured until footings have been inspected and approved by the authority having jurisdiction.
- No wall and/or retaining wall shall be grouted until the reinforcing required has been inspected and approved by the authority having jurisdiction.
- No retaining wall shall be backfilled until verification of the required damp proofing and drainage had been inspected and approved by the authority having jurisdiction.
- Walls and fences shall not block the natural flow of surface water across the property, nor shall they divert the flow of surface water onto another property.

STORM WATER: All projects that disturb one (1) acre or greater require an NDEP permit. Contact NDEP at (775) 687-9417 for more information.
