**RE: EOT-64092 - EXTENSION OF TIME RELATED TO EOT-64090 AND
EOT-64091 - SITE DEVELOPMENT PLAN REVIEW
CITY COUNCIL MEETING OF MAY 18, 2016**

Dear Mr. Dix:

The City Council at a regular meeting held on May 18, 2016 **APPROVED** a request for an Extension of Time of an approved Site Development Plan Review (SDR-48464) FOR A PROPOSED SIX-STORY MIXED-USE DEVELOPMENT CONSISTING OF 166 RESIDENTIAL UNITS AND 47,100 SQUARE FEET OF COMMERCIAL SPACE WITH WAIVERS TO ALLOW A ZERO-FOOT WIDE LANDSCAPE BUFFER ALONG THE INTERIOR PROPERTY LINE WHERE AN EIGHT-FOOT WIDE LANDSCAPE BUFFER IS REQUIRED AND TO ALLOW A 51-FOOT RESIDENTIAL ADJACENCY SETBACK WHERE A 279-FOOT SETBACK IS REQUIRED on 2.09 acres at the northwest corner of Charleston Boulevard and 10th Street (APNs 139-34-810-101 through 105, 074, and 075; and 139-34-812-003), C-1 (Limited Commercial) Zone, Ward 3 (Coffin).

This approval is subject to the following conditions:

Planning

1. This Site Development Plan Review (SDR-48464) shall expire on May 15, 2018 unless another Extension of Time is approved by the City Council.
2. Conformance to the conditions of approval for Site Development Plan Review (SDR-48464) and all other site related actions as required by the Department of Planning and the Department of Public Works.

The Notice of Final Action was filed with the Las Vegas City Clerk on May 19, 2016.

Sincerely,

Thomas A. Perrigo

RE: Justification Letter for – Mixed Use at Charleston & 10th EOTs
Request: 1st EOT of Time for SUP-48462, SDR-48464, VAR-48460 & VAC-48465
APN: 139-34-810-101 to 105, 074, 075 & 139-34-817-003

Dear Mr. Perrigo:

Please accept on behalf of our client, Charleston Towers, LLC this justification letter for an Extension of Time for a Special Use Permit, Site Development Review, Variance and Vacation. The proposed project is located on 2.09 +/- acres and is comprised of eight parcels, located at the northwest corner of Charleston and 10th Streets. The property was rezoned to C-1 by the City Council on May 15, 2013.

The request is for a two year EOT for SUP-48462, SDR-48464, VAR-48460 & VAC-48465 in order to allow for a six story mixed use development with 166 residential units, 41,700 square feet of commercial, and a parking structure visible from public ROW with waivers: a zero-foot side landscaped buffer along the interior property line where; eight-foot wide landscape buffer is required and a 51-foot residential adjacency setback where a 279-foot setback is required. The EOT request acknowledges it will be subject to any applicable original condition of approval.

The economy and economics have now improved to make such a project more feasible. The location, design and uses remain consistent with the Downtown plans and compatible with the area. The extension will allow the project time to demonstrate progress.

APPROVAL CRITERIA- SPECIAL USE PERMIT

Title 19.16.110-(L)

The following are the determinations to be made for approval of a Special Use Permit:

- a) ***The proposed use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses and with future surrounding land uses as projected by the General Plan;***

The Southeast Sector Land Use Map shows that the entire area of the City north of this site and the Charleston Boulevard corridor, from Main Street to Bruce Street, up to Bonanza Road, is designated predominately Commercial or for Mixed Use, which clearly indicates that modern, mixed use projects are a key component to encouraging reinvestment and redevelopment in this area of the City. The proposed use is oriented toward the Charleston Boulevard. The Redevelopment Plan encourages the assemblages of parcels to promote the type and intensity of development to stimulate the economy of the downtown area.

GCGARCIA

EOT-64092

RECEIVED

APR 05 2016

Dept of Planning

A Planning & Development Services Corporation

1055 Whitney Ranch, Suite 210, Henderson, Nevada 89014-3205

Telephone: 702 435 9909 Facsimile: 702 435 0457 E-Mail: ggarcia@gcgarciainc.com

The site is currently approved for a far more intense mixed use SUP and was found compatible at the time. The result will dramatically improve and reduce the visual, traffic and neighborhood impacts to create a far more compatible design than currently approved and a better fit with the City's evolving downtown district. The proposed revisions retain the use but reflect compatibility in scale, mass, and intensity more compatible and harmonious for the current times.

b) The subject site is physically suitable for the type and intensity of land use being proposed.

In terms of land use designation, the site is already designated for Commercial land uses. In terms of the actual project proposed for the property, it can accommodate the proposed mix of residential and commercial uses, while providing all parking in a six level parking garage. Adequate on-site access and circulation will be provided to ensure free-flow of pedestrian, traffic movements and accommodate all emergency services.

c) Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use; and

The surrounding street network should be adequate to provide access and traffic carrying capacity. A traffic study was done for the currently approved more-intense mixed use and an updated study will be submitted if needed to determine additional improvements that will be needed to accommodate traffic and circulation needs.

d) Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety and welfare or the overall objectives of the General Plan.

Approval of this Special Use Permit will implement the core vision and objectives of the Redevelopment Plan of the City of Las Vegas. It will spur economic activity; provide places for new and current residents to live, work, shop and play. It will lead to additional investment and needed redevelopment in the immediate area and other parcels located within the Redevelopment Plan area. Therefore, it will contribute to the overall well-being of the City, and enhance the public health, safety and welfare.

APPROVAL CRITERIA- VARIANCES

Title 19.16.140 (L)

The following is the substantive criterion for determining approval of variance applications:

- 2) **Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of the enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.**

EOT-64092

Waivers & Variance Requests & Justification:

- 1) **Residential Adjacency 19.06.040.1.2.a.1** *the residential adjacency standards, which states that no non-residential building shall exceed the height of a line drawn from the property line of a protected property at a 3:1 slope directly into the property subject to the standards of the chapter*
- 2) **Interior Landscape Buffer** to allow a zero-foot wide landscape buffer where eight foot is required.

The project meets the requirements for a Waiver as provide in subsection 2.e.1 however the Variance was previously approved

2e1. *Any mixed-use development that contains a significant residential element.*

The proposed project contains commercial and residential with 166 units on 2.05 acres, which is a significant amount of residential.

- a. Strict application of the Code standard would make it difficult for any reasonable commercial property to be built on the site without some variance to the standard. This development pattern is not a result of any action taken by the applicant, or their predecessor in title. Also, this and all the other surrounding properties are designated for Commercial or for Mixed Use Development, which should be a factor in determining the appropriateness of a variance application.
- b. While on its face the variance may seem excessive, it is not in terms of factoring the overall objectives of the Redevelopment Plan. The long term vision of the plan is for re-planning and redeveloping stagnant areas of the City that no longer contribute to its tax or economic base. Therefore, the variance to allow a modern, forward-looking mixed use development should be considered.
- c. Paragraph 5.b. entitled Waiver, states any mixed-use development that contains a significant residential element is eligible for a waiver by the City Council. The gross building size of the project is 398,133 square feet; with 166 dwelling units and 47,100 sf of retail. Clearly this is a residential driven project that given its importance to continued implementation of the Redevelopment Plan should be considered for a waiver.
- d. The boundaries of the Downtown Centennial Plan extend to one-half block east of 6th Street, north of Charleston Boulevard. This is only two blocks away from the western edge of this project. If the project were in the Downtown Centennial Plan, Code standards would not be automatically applied. This is, obviously, in close proximity to the Plan area, and when reviewing the Future Land Use Maps of the Downtown Plan, Redevelopment Plan and Southeast Sector of the General Plan, all allow and encourage either commercial or mixed-use development; there is no real difference of lying within, or outside the Downtown Plan boundaries in terms of actual land use.

Title 19.08.070, Table 1, C-A Limited Commercial District *allow a variance to the maximum building coverage of 50%, where 56% is requested. The variance is warranted for the following reasons and was previously approved by City Council.*

EOT-64092

- a. The six percent increase in lot coverage is minor and will not result in any detriment to the overall health, safety and general welfare to this area of the City.
- b. As previously identified, the site is in close proximity to the area covered by the City of Las Vegas Downtown Centennial Plan, where the automatic application of Code standards is not applied.
- c. The waiver was previously deemed appropriate.

APPROVAL CRITERIA- SITE DEVELOPMENT PLAN REVIEW
Title 19.16.100 (E)

The following criteria are to be considered for approval of a Site Development Plan Review:

1) *The proposed development is compatible with adjacent development and development in the area;*

While the predominant existing development pattern to the north of Charleston Boulevard is a mixture of professional office and some remaining single family units, the Redevelopment Plan encourages mixed-use as a major tool for redevelopment. Also, the project is constructed so as to not encourage any cut-through traffic for the businesses north of Charleston, or any of the residential neighborhoods south of Charleston Boulevard. The parcels to the east are zoned C-2, which not only allows mixed use with a special use permit, but more intense commercial uses as well.

The prior approval was more intense, taller, and massive than the current design. As proposed the proposed development is more compatible.

2) *The proposed development is consistent with the General Plan, this title, the Design Standards manual, the Landscape Wall and Buffer Standards and other duly-adopted city plans, policies and standards:*

The project is in substantial accordance with development related ordinances of the City. All landscaping, open space and required recreational amenities for a project of this size and scale will be provided. The Waiver or Variances to the residential adjacency standards and building coverage are reasonable and not beyond the scope of the type of intensity and density that will be needed to reinvigorate this area of the City.

The architectural changes and enhancements to the building and site help make the design more compatible, more attractive, walkable, safe and inviting. The changes comply with and substantially improve upon the previous approvals. The 2020 policy does suggest incentives for relaxing standards when balanced against the quality of the improvements.

3) *Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;*

All access will be directed to Charleston Boulevard, to minimize any impacts to business owners or residents in the area. The north/south alley, if vacated, will continue to operate as it currently does, in terms of access and traffic flow. The

EOT-64092

proposed development is significantly less intense than the previously approved project.

4) *Building and landscape materials are appropriate for the area and for the City*

The buildings will be constructed of Low E clear glass, vision and spandrel glazing in aluminum framed curtain walls, with storefront retail glazing. This will be an exciting, vibrant addition to this area of the City, spurring additional redevelopment and reinvestment in the area. Therefore, the building and landscape material effectively implement the long-term vision of the Redevelopment Plan.

5) *Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable or obnoxious in appearance; create an orderly and aesthetically pleasing environment, and are harmonious and compatible with the area*

The existing development on the property is unsightly, undesirable and obnoxious in appearance, which has led to an overall decay along the Charleston Boulevard corridor. This project will bring an attractive, exciting environment to Charleston Boulevard and will be an important first step in changing the face of this area of the City.

6) *Appropriate measures are taken to secure and protect the public health, safety and general welfare.*

The redevelopment of this area is in the highest interest of all resident of the City of Las Vegas. Making the Redevelopment Plan objectives a reality will bring new development, new investment and a new, much needed vibrant atmosphere to this area.

APPROVAL CRITERIA- VACATIONS Title 19.16.080.E.3

If, following the public hearing, the City Council is satisfied what the public will not be materially injured by the proposed vacation, it may order the right-of-way vacated. The City Council may make the order conditional, and the order shall become effective only upon the fulfillment of the conditions prescribed.

The proposed vacation is to modify the current alley way to reflect the project design and lot assemblage. The vacation is entirely fronted by the applicant's properties. The resultant alley way and private drive will provide for service deliveries and emergency services

SUMMARY

We believe this project remains as a potential impetus for the revitalization along the north side of the Charleston Boulevard corridor. It assembles parcels that are stagnant, underutilized and in need of redevelopment into an exciting mixed-use project that will spur future redevelopment activity. The intent is to enhance the environment of the business owners to the north, while having minimal impacts, in terms of views, traffic and shading to the John S. Park neighborhood to the South.

EOT-64092

The new plans a first step in implementing the overall objectives of the Redevelopment Plan along the north side of Charleston Boulevard. The new plans are a recognition of the need to lessen the visual impacts and create a more compatible and harmonious relationship to surrounding properties.

In summary, we respectfully request a two year first EOT for the SUP, SDR, VAR & VAC until May 15, 2018. The project advances the overall objectives of the City's General Plan and Development Codes and will be an attractive and compatible addition to this neighborhood.

Please contact me if you have any questions or need additional information.

Sincerely,

George Garcia,
President

RE: SDR-48464 – SITE DEVELOPMENT PLAN REVIEW
RELATED TO VAR-48460, SUP-48462 AND VAC-48465
CITY COUNCIL MEETING OF MAY 15, 2013

Dear Mr. Dix:

The City Council at a regular meeting held May 15, 2013, APPROVED the request for a Site Development Plan Review FOR A PROPOSED SIX-STORY MIXED-USE DEVELOPMENT CONSISTING OF 166 RESIDENTIAL UNITS AND 47,100 SQUARE FEET OF COMMERCIAL SPACE WITH WAIVERS TO ALLOW A ZERO-FOOT WIDE LANDSCAPE BUFFER ALONG THE INTERIOR PROPERTY LINE WHERE AN EIGHT-FOOT WIDE LANDSCAPE BUFFER IS REQUIRED AND TO ALLOW A 51-FOOT RESIDENTIAL ADJACENCY SETBACK WHERE A 279-FOOT SETBACK IS REQUIRED on 2.09 acres at the northwest corner of Charleston Boulevard and 10th Street (APNs 139-34-810-101 through 105, 074, and 075; and 139-34-812-003), C-1 (Limited Commercial) Zone. The Notice of Final Action was filed with the Las Vegas City Clerk on May 16, 2013. This approval is subject to:

Planning

1. Site Development Plan Review (SDR-14349) shall be expunged upon final approval of this request.
2. Approval of and conformance to the Conditions of Approval for Variance (VAR-48460), (Special Use Permit (SUP-48462), and Vacation (VAC-48465) shall be required, if approved.
3. This approval shall be void **three** years from the date of final approval, unless exercised pursuant to the provisions of LVMC Title 19.16. An Extension of Time may be filed for consideration by the City of Las Vegas.
4. All development shall be in conformance with the site plan, landscape plan, floor plans date stamped 02/21/2013, and building elevations, date stamped 05/15/2013, except as amended by conditions herein.

5. A Waiver from Title 19.08.040(H) is hereby approved, exempting the height of the proposed development from compliance with the Residential Adjacency Proximity Slope requirements.
6. A Waiver from Title 19.08.070 is hereby approved, to allow no landscape buffer adjacent to the rear alley way where an eight-foot wide landscape buffer is required.
7. An Exception from Title 19.08.040(F)(8)(b) is hereby approved, to allow no shrubs per 24-inch box tree where four 5-gallon shrubs per tree are required.
8. All necessary building permits shall be obtained and final inspections shall be completed in compliance with Title 19 and all codes as required by the Department of Building and Safety.
9. These Conditions of Approval shall be affixed to the cover sheet of any plan set submitted for building permit.
10. The applicant shall coordinate with the City Surveyor and other city staff to determine the most appropriate mapping action necessary to consolidate the existing lots. The mapping action shall be completed and recorded prior to the issuance of any building permits.
11. Prior to the submittal of a building permit application, the applicant shall meet with Department of Planning staff to develop a comprehensive address plan for the subject site. A copy of the approved address plan shall be submitted with any future building permit applications related to the site.
12. A Comprehensive Construction Staging Plan shall be submitted to the Department of Planning for review and approval prior to the issuance of any building permits. The Construction Staging Plan shall include the following information: Design and location of construction trailer(s); design and location of construction fencing; all proposed temporary construction signage; location of materials staging area; and the location and design of parking for all construction workers.
13. A technical landscape plan, signed and sealed by a Registered Architect, Landscape Architect, Residential Designer or Civil Engineer, must be submitted prior to or at the same time application is made for a building permit. A permanent underground sprinkler system is required, and shall be permanently maintained in a satisfactory manner; the landscape plan shall include irrigation specifications. Installed landscaping shall not impede visibility of any traffic control device.
14. No turf shall be permitted in the non-recreational common areas, such as medians and amenity zones in this development.

15. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply, shall be installed and shall be functioning prior to construction of any combustible structures.
16. Reflective glass at the pedestrian level is prohibited. Glass on the second floor and above shall not be greater than 22% reflectivity.
17. All City Code requirements and design standards of all City Departments must be satisfied, except as modified herein.

Public Works

18. A Petition of Vacation, such as VAC-48465, to eliminate the existing alley rights-of-way in conflict with this site plan shall record prior to the recordation of a Final Map for this site. Dedicate a 20-foot wide alley along the northern side of Assessor's Parcel No. 139-34-810-075 to connect to Ninth Street (including a radius) acceptable to the City Engineer immediately after recordation of the Order of Vacation. Alternatively, grant appropriate Public Roadway, Sewer, and Drainage Easements over the same area required for dedication.
19. Dedicate a 25-foot radius on the northwest corner of 10th Street and Charleston Boulevard and on the corner of Charleston Boulevard and Gass Avenue. Dedicate an additional 10 feet of right-of-way for a total 25-foot radius corner on the northeast corner of Gass Avenue and Ninth Street.
20. Remove all substandard public street improvements and unused driveway cuts adjacent to this site and replace with new improvements meeting current City Standards concurrent with development of this site. A geotechnical soils report, to determine the condition of the adjacent pavement, shall be submitted concurrent with the submittal of off-site construction drawings for the site and shall be approved prior to the issuance of any offsite permits.
21. Construct all incomplete half-street improvements to meet current City Standards adjacent to this site concurrent with development of this site. All existing paving damaged or removed by this development shall be restored at its original location and to its original width concurrent with development of this site.
22. A sanitary sewer relocation plan must be submitted to and approved by the Collection Systems Planning Section of the Department of Public Works prior to the issuance of any permits. Provide public sewer easements for all public sewers not located within existing public street right-of-way prior to the issuance of any permits as required by the Department of Public Works. Improvement Drawings submitted to the City for review shall not be approved for construction until all required public sewer easements necessary to connect this site to the existing public sewer system have been granted to the City.

23. Landscape and maintain all unimproved rights-of-way adjacent to this site. All landscaping and private improvements installed with this project shall be situated and maintained so as to not create sight visibility obstructions for vehicular traffic at all development access drives and abutting street intersections.
24. Submit an Encroachment Agreement for landscaping and private improvements, if any, in the Ninth Street, Garces Avenue, and Tenth Street public rights-of-way prior to this issuance of permits for these improvements. The applicant must carry an insurance policy for the term of the Encroachment Agreement and add the City of Las Vegas as an additionally insured entity on this insurance policy. If requested by the City, the applicant shall remove property encroaching in the public right-of-way at the applicant's expense pursuant to the terms of the City's Encroachment Agreement. The installation and maintenance of all private improvements in the public right-of-way shall be the responsibility of the adjacent property owner(s) and shall be transferred with the sale of the property for the entire term of the Encroachment Agreement. Coordinate all requirements for the Encroachment Agreement with the Land Development Section of the Department of Building and Safety (229-4836).
25. A Traffic Impact Analysis must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits, submittal of any construction drawings or the recordation of a Map subdividing this site. Comply with the recommendations of the approved Traffic Impact Analysis prior to occupancy of the site. The Traffic Impact Analysis shall also include a section addressing Standard Drawings #234.1 #234.2 and #234.3 to determine additional right-of-way requirements for bus turnouts adjacent to this site, if any; dedicate all areas recommended by the approved Traffic Impact Analysis. All additional rights-of-way required by Standard Drawing #201.1 for exclusive right turn lanes and dual left turn lanes shall be dedicated prior to or concurrent with the commencement of on-site development activities unless specifically noted as not required in the approved Traffic Impact Analysis. If additional rights-of-way are not required and Traffic Control devices are or may be proposed at this site outside of the public right-of-way, all necessary easements for the location and/or access of such devices shall be granted prior to the issuance of permits for this site. Phased compliance will be allowed if recommended by the approved Traffic Impact Analysis. No recommendation of the approved Traffic Impact Analysis, nor compliance therewith, shall be deemed to modify or eliminate any condition of approval imposed by the Planning Commission or the City Council on the development of this site.
26. A Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits, submittal of any construction drawings or the submittal of a Map subdividing this site, whichever may occur first. Provide and improve all drainageways recommended in the approved drainage plan/study. The developer of this site shall be responsible to construct such neighborhood or local drainage facility improvements as are recommended by the City of Las Vegas Neighborhood Drainage Studies and approved

EOT-64092

Mr. Mark Dix
SDR-48464 – Page Five
June 4, 2013

Drainage Plan/Study concurrent with development of this site. In lieu of constructing improvements, in whole or in part, the developer may agree to contribute monies for the construction of neighborhood or local drainage improvements, the amount of such monies shall be determined by the approved Drainage Plan/Study and shall be contributed prior to the issuance of any building or grading permits, or the recordation of a Map subdividing this site, whichever may occur first, if allowed by the City Engineer.

Sincerely,

Angela Crolli
Deputy City Clerk for
