SUBJECT: Revised Justification Letter for Pardee Homes Providence POD 307 Tentative Map and Waiver

Slater Hanifan Group, on behalf of the applicant, Pardee Homes of Nevada, respectfully submits this justification letter in support of the subject Tentative Map and Waiver application for the subject development. The purpose of this request is to develop a 106 lot development on approximately 20 gross acres within POD 307 of the Providence Master Development (formerly known as Cliff's Edge). The proposed layout is for all single family detached residences located at Centennial Parkway and Shaumber Road. The Assessor's Parcel Number: 126-24-410-002

The land use for POD 307 in the approved master plan is Residential Small Lot (RSL) development for up to 15 du/ac but this proposed development is more in line with the Low Density classification (<5.5 du/ac) per Cliffs Edge design guidelines. The development standards for the RSL (Mini-Lot conventional) will still be utilized for this development.

There are two waivers being requested. The first waiver is to reduce the interior street intersection offset to 66' from 125' per Section 18.12.160 of the Code. This occurs at the first street just east of the entrance of the subdivision. At the pre-submittal meeting, Rick Schroder requested that the entrance off Centennial be shifted in order to get the street offset to 10' from the apartment complex's entrance on the south side of Centennial. In order to accomplish this, it created the reduced offset on the internal private street. The reduced internal street offset was less of an issue than having the main entrances off Centennial be misaligned. This request has been met and is reflected on the tentative map. The second waiver is for the use of three minor stub streets for utility and grading purposes per Section 18.12.110 of the Code. Two of the stub streets are located on the northern street to allow the lots to be rotated so that they line up better with the existing pads in the Ryland Homes project and step down with the natural grade to alleviate grading/retaining wall issues. The third stub street is parallel to Shaumber Road in the southeast corner of the site and is needed for the

water, sewer and drainage from the site to tie into existing improvements in Centennial Parkway. SHG has discussed these waivers with staff and they have been receptive to the site challenges which warrant the request for these waivers.

Please contact me at 284-5300 if you have any questions regarding these applications.

Sincerely,

Slater Hanifan Group, Inc.

Waiver for street intersection offsets and cul-de-sac requirements

COMMENTS:

We have no objection to the Request for a Waiver of Title 18.12 to allow an internal intersection offset of 66 feet where 125 feet is required and to allow private streets to terminate in dead-end stubs where cul-de-sac are required on 20.28 acres at the northwest corner of Shaumber Road and Centennial Parkway.

Although staff does not generally support a waiver of the cul-de-sac standards, we note that this site is within the Providence (aka "Cliff's Edge") Master Planned Community. Development Standards in effect at the time of adoption of this Master Plan allowed stub streets, and their use is common within the community. In addition, the developer has cooperated with staff in minimizing the number of stub locations initially proposed, thus reducing the magnitude of the requested waiver. Therefore, staff can support the requested waiver in this case.

We also note that this site is the subject of a Tentative Map (TMP-38575); all site-related conditions of approval are addressed in that action.

Subject: CLV Planning and Development 7/29/10

Comments from LVVWD:

VAC - 36478: There is an existing 6" ACP water line in the proposed vacation alignment. The water line will need to be relocated for the vacation approval. Civil plans need to be submitted to LVVWD for approval.

SUP - 38574: This is an existing residential lot with a 1" meter and no backflow prevention assembly. Civil plans need to be submitted to LVVWD for approval because the meter may not be properly sized and a backflow prevention assembly will be required with this SUP.

WVR - 38578: Providence Pod 307 Tentative map does not meet LVVWD minimum standards. Their plan presently calls for two feeds through easements, and both are from a single source. LVVWD has already commented on this on the water availability letter for the tentative map.
