Re: A Cab Taxi Dispatch Center
APN: 139-26-201-004
Major Modification to SDR-35195
Special Use Permit
Variance

To Whom It May Concern:

Architecture
Engineering
Planning
Interiors
Landscape

Enclosed please find the required application materials associated with the following requests:

- Major modifications to an existing Site Development Plan Review for a Taxi Yard with waivers of a portion of the landscaping requirement.
- Special Use Permit for outside storage within the side setback
- Variance for 0'-0" side setback where 8'-0" is required

A Cab Taxi Co. has been operating at its existing site located at 4444 South Valley View since 2004 and received its first medallion from the Taxicab Authority in 2001. Its current site on .86 acres has continually met the company's needs since that time. The recent condemnation of the existing site to facilitate the expansion of Harmon Avenue has required that the business be relocated. The proposed 1.89 acre site located at 1500 Searles Avenue is a suitable location for the permitted use within a C-M zone. A Cab has been operating out of the Searles location for approximately 6 months.

The existing office building has been remodeled to accommodate the company's approximately 12 non-driver employees. Adequate parking for both these employees, as well as those drivers who may bring a personal vehicle to work is provided, although experience has shown that many employees choose public transportation instead of driving private vehicles. The Certificate of Occupancy has been granted for this structure as of 02.11.10.

Accessory buildings on site reflect the site's use for limited maintenance of company owned vehicles. Auto Repair Garage (Minor) and Auto Paint and Body Repair Shop are both Conditional Uses in the C-M zone, and any maintenance performed on site will consist only of preventative or basic maintenance such as oil changes, tire changing, and minor paint jobs to keep the taxis prepared for their usual schedules. No fueling services will be offered, and more intense body work, such as that associated with vehicles involved in collisions, will be performed elsewhere. As required, the repair and service work will be performed within the proposed building in an area which will be completely enclosed. The repair garage previously shown on the site has been relocated just south of the existing office building and a portion of the parking has been relocated along the southern property line and the eastern property line.

We are requesting a variance for the eastern (side setback) of the Supervisor Shelter of 0'-0" where 8'-0" is required. This structure allows the cab drivers to download their information to the computer for billing purposes.

F 951.823.0550

We are also requesting a special use permit to allow outside storage within the side setback at the north end of the property. This will help to provide a buffer from the site to the street and will provide a continuous landscape strip.

We are requesting a waiver (in addition to the waivers already approved with the previous SDR) to provide a 0'-0" landscape buffer where an 8'-0" landscape buffer is required along the east property line and to provide a 0'-0" landscape buffer where 15'-0" landscape buffer is required along the southern property line. A sidewalk along Gragson has been shown on the plans at the councilman's request. The existing trees on the residential side of the wall offer an adequate buffer between the two properties.

If you have any questions or need additional information regarding anything with respect to these requests, please do not hesitate to contact my office.

Sincerely,

Kristen G. Neuman, AIA
