The applicant is proposing to place six on-premise signs within the porte cochere area at the main entrance to the Stratosphere Hotel and Casino. All six signs are five feet tall and ten feet long for a total of 50 square feet each.

ANALYSIS

This is a request for a signage review on a building located at 2000 S. Las Vegas Boulevard. The property is within the Las Vegas Boulevard Scenic Byway Overlay District. The applicant is proposing to place six on-premise signs within the porte cochere area at the main entrance to the Stratosphere Hotel and Casino.

The proposed on-premise signs are identical, depicting the Stratosphere Hotel and a Roulette Table. All six signs are five feet tall and ten feet long for a total of 50 square feet each. The sign faces will be backlit with four fluorescent lamps. The three signs to the south of the main entrance are spaced 14'-1" apart. The three signs to the north of the main entrance are spaced 23'-2" apart. The proposed signs do not have neon or animation and do not meet the Las Vegas Boulevard Scenic Byway Overlay District standards of 75% neon or animation.

The applicant is requesting a Waiver of Title 19.06.140(C)(2) to allow a non illumination or animated signs on a property located along the Las Vegas Boulevard Scenic Byway Overlay District. In addition, the applicant is requesting a Waiver of Title 19.06.100(C)(5) to allow on-premise signs not exceed 65 square feet to have a separation distance of less than 50'.

The Scenic Byway standards apply to the entire property and no allowance is made for signs that are not viewable from the public right-of-way. A site inspection was conducted on December 2, 2010 and it was determined signs 3 and 6 closest to the white double doors on the north and south sides would be visible from the right-of-way. Signs 2 and 5 will be partially visible and signs 1 and 4 would be obscured with limited viewing opportunities.

The overall signage concept does not meet the design intent of the Las Vegas Boulevard Scenic Byway Overlay District, which seeks to preserve the tradition of neon art and encourage signage that will enhance the district as a nationally recognized place. The proposed signs do not:

- Enhance the historic character of the district.
- Celebrate the best of the sign makers' art.
- Improve the quality and appearance of new development within the district.

FINDINGS

Staff is recommending denial of this request, as the proposed signage does not meet the requirements for neon or animation of the Scenic Byway Overlay District. Further, the six signs are within the first ten feet vertically from the sidewalk and do not maintain a separation distance of 50'. In addition, the lack of neon or animation does not capture the tradition of neon art and encourage signage that will enhance the district as a nationally recognized place.

RECEIVED

DEC 01 2010

Dear Mr. Donley:

On behalf of American Casino Entertainment Properties, LLC, owners of the Stratosphere Hotel and Casino, this letter shall serve as justification for the installation of dura trans signage underneath the Porte Cochere at the main entrance to the hotel and casino. The following are the conditions specified in code, and our explanation of our specific compliance.

The applicant establishes that a waiver is warranted based upon conditions specific to the parcel:

1. The signage we wish to install, while facing the street, is well underneath the porte cochere, and behind several visual barriers in place with the existing structure. They are not meant to be external signage, but rather meant to be seen by patrons already entering the property.
2. The dura trans will not compromise the objectives of the sign standards due to their small size and their placement adjacent to the front entrance doors underneath the porte cochere. They are meant to be noticed only by customers who have already made a decision to be our guests.
3. The signage will further the City's redevelopment efforts because the Stratosphere is located within the Redevelopment District and is part of a broader program of redevelopment inside and outside of the hotel casino. We have been recruiting additional tenants into the Stratosphere and making internal improvements such as new flooring, new amenities, and refurbished exterior landscaping. These efforts are designed to bring in additional customers, which will enhance the revenue to the Redevelopment District. The signage is meant to enhance sales for our new tenants and our own internal offerings by informing prospective customers about their offerings as they arrive on property, and is part of an overall advertising effort to increase revenue on property. Such advertising is critical to increasing revenue.

We are requesting that the City of Las Vegas grant us a waiver such that the signs be separated by less than 50' apart (our signs are about 20' apart); that the signs be less than 10' above a finished sidewalk and pedestrian pathways (our signs are 7' above) and finally a waiver that the signs have less than a 50% of neon or animated signage (our signs have no neon or animation).
