Dear Mr. Sherwood:

Your request for a Special Use Permit FOR AN ACCESSORY PACKAGE LIQUOR OFF-SALE ESTABLISHMENT USE WITHIN A PROPOSED 94,683 SQUARE-FOOT GROCERY STORE at 6101 North Decatur Boulevard (APN 125-25-614-001), C-1 (Limited Commercial) Zone, Ward 6 (Ross), was considered by the Planning Commission on January 25, 2011.

The Planning Commission voted to **APPROVE** your request, subject to the following:

Planning and Development

1. Delivery hours for the Grocery Store with Accessory Package Liquor Off-Sales use shall be seven days a week, 6:00 a.m. to 12:00 a.m.
2. Delivery trucks shall not access to/from Tropical Parkway.
3. There shall be "No Delivery Truck Access" signage posted at the Tropical Parkway entrance/exit.
4. Delivery trucks shall access to/from Rice Avenue.
5. Conformance to all Minimum Requirements under LVMC Title 19.04.010 for a Retail Establishment with Accessory Package Liquor Off-Sale Establishment use.
6. Approval of and conformance to the Conditions of Approval for Variance (VAR-40226) and Site Development Plan Review (SDR-40223) shall be required.
7. Conformance to the approved conditions for Master Sign Plan (MSP-25930) and Site Development Plan Review (SDR-22582).
8. This approval shall be void two years from the date of final approval, unless a business license has been issued to conduct the activity. An Extension of Time may be filed for consideration by the City of Las Vegas.

Request for a Special Use Permit for an accessory package liquor off-sale establishment use within a proposed grocery store

COMMENTS:

We have no comment on the Request for a Special Use Permit application to allow an accessory package liquor off-sale establishment use located within a proposed grocery store located at 6101 North Decatur Boulevard.

We note that this site is the subject of a Site Development Plan Review SDR-40223; all site-related conditions of approval are addressed with that action.

ENGINEERING AND PLANNING SERVICES

November 11, 2010

Mr. Doug Rankin, Planning Manager
City of Las Vegas
Development Services Center
731 South Fourth Street
Las Vegas, NV 89101

Re: Justification Letter - Decatur/215 Redevelopment
SCJ Project #1226.01

Dear Mr. Rankin:

WinCo Foods is proposing to construct a new 94,683 square foot grocery store on the vacant portion of an existing retail center at the intersection of 215 & Decatur. Based on previous meetings and discussions with you and your staff, including a Pre-Application meeting on September 1st, it is our understanding that the following applications will be required for this proposal:

- Site Development Permit
- Special Use Permit to allow sales of package liquor
- Variance to locate a screen wall at the rear of the site closer than 20 feet to the right-of-way.

Each of these applications has been completed along with the required documentation and plans. The following sections of this letter summarize how the proposal will meet each of the requirements for the specific applications.

Background

A Target store currently occupies the northern portion of the retail center, and the southern portion contains unutilized parking areas and vacant building pads. The new WinCo Foods will redesign the layout of the southern portion of the site to accommodate the grocery store and two out parcels adjacent to Decatur Boulevard.

WinCo Foods began in 1967 with its first discount supermarket in Boise, Idaho. It currently operates 75 stores in six states (Washington, Idaho, California, Nevada, Utah and Oregon), and has more than 13,000 employees. Each WinCo store operates 24 hours a day, seven days a week and employs an average of 160 people. The company has obtained a State of Nevada business license.

RECEIVED

NOV 15 2010

Conformance with the General Plan

The site is designated Service Commercial in the Las Vegas General Plan. The proposed project is consistent with this designation. The Service Commercial category allows low to medium intensity commercial uses that primarily serve local patrons, such as neighborhood shopping centers, theaters, and offices, and may also allow mixed use development where appropriate. The project layout has been prepared in accordance with the standards set forth in the Las Vegas Development Standards including setbacks, parking, landscaping and walls/buffers.

The WinCo grocery store will be a complementary use to the Target store located immediately north within the same shopping center. The site is bounded by Decatur Boulevard and Tropical Parkway, both of which are arterial streets and provide exceptional access on both the east and south edges of the project.

The building will be constructed of split face CMU block. Both smooth face and rough block will be used to provide visual relief. Two block colors will also be used to enhance aesthetics of the building. Metal coping, glazed tile and cultured stone will be incorporated into the building as accent materials.

Access points to the project will remain as proposed in the original development. A full access to the site is located on Decatur Boulevard directly across from Rice Avenue. A right in/right out driveway is located south of the full access on Decatur Boulevard. The primary service drive is at the southeast corner of the site, accessed off Tropical Parkway. This design is consistent with the previous approval.

Special Use Permit

A Special Use Permit is required due to the plan to sell package liquor within the store. The package liquor sales area will occupy 546 square feet of the total 94,683 square foot store (beer sales = 340 square feet, wine sales = 125 square feet and spirits = 81 square feet). No on-site consumption of alcoholic beverages will occur.

Variance For Screen Wall

An eight foot tall concrete block wall is proposed along the south edge of the property on Tropical Parkway to provide a visual screen of the back of the new WinCo store. Because there is a residential neighborhood located immediately south of the site across Tropical Parkway, a solid wall is needed to provide visual screening and noise buffering for the homes to the south. The standard design requirements for front walls in the Las Vegas zoning code would not provide sufficient screening for the neighbors so a variance is needed. The wall will be an eight foot tall cmu structure. This design will provide substantially more visual and noise screening than the front yard fence described in the zoning code which consists of a solid two foot tall base and three feet of decorative open view fence above the base. To enhance the aesthetics of the proposed eight foot tall perimeter fence, decorative elements such as pilasters, contrasting materials, and detail variations will be incorporated into the design. Landscaping will be installed between the sidewalk on Tropical Parkway and the wall. The landscape beds vary in width from five to 25 feet along the length of the wall. Plant materials have been selected to complement landscaping installed with the Target store and to be complementary to the surrounding area.

A variance is also required due to the proximity of the proposed block wall discussed above to the property line. The wall will be located at the back of the existing landscape beds which currently vary from approximately five to 25 feet in width. The width of the beds is also affected by the bus pullout that is located on the westbound travel lane of Tropical Parkway. In order to accommodate safe and efficient circulation of trucks on the south end of the store where the service area is located, the wall must be closer than 20 feet to the property line. The Truck Turning Movement exhibit attached illustrates the area needed for trucks to back out from the loading dock and circulate behind the building. This condition requires a variance from Section 19.12.075 of the Las Vegas zoning code. The width of the WinCo store, location of outparcels on the eastern property line, and shape of the site results in the need to reduce the setback for the wall on the south side of the site. The landscape bed

located between the wall and the sidewalk varies from 5 to 25 feet in width and will be planted in a manner that provides an attractive visual setting. The varying landscape bed width will create visual interest, without detracting from the aesthetics of the site. The setback variation will not impact natural resources or conflict with the intent of any city ordinance or regulation.

On-Site Landscaping

WinCo is requesting an exception from the landscape standards regarding spacing of islands throughout the parking lot. The standard calls for a landscape island every six stalls. The WinCo project landscape design includes landscape islands located every eight stalls. Despite this change from the specific standard, the project overall exceeds the amount of landscaping previously approved for the site. Instead of landscaping dispersed throughout the parking lot every six stalls, the site design requires larger landscape islands located at the northern end of the WinCo parking lot to appropriately control traffic and beautify the perimeter of the site. A large landscape bed is also located at the southeast entrance to buffer the back of the store and provide an attractive entrance near the adjacent neighborhood.

Hours of Operation

All of WinCo's stores operate 24 hours a day, 7 days a week. This business model is key to their success and provides the structure needed to operate efficiently. Deliveries occur throughout the day although generally do not occur between the hours of midnight and 4 a.m. The previous approval for the 215 & Decatur site (SDR-22582) included restrictions on delivery hours and hours of operation. The restrictions included in that approval will not work for the proposed project and we hereby request that this condition of approval not be attached to the proposed WinCo store.

Summary

The proposed WinCo will transform the existing site from an incomplete to a fully developed and active commercial center. It will provide the surrounding area with needed jobs and enhanced shopping opportunities. We believe the attached submittal package is complete and meets the requirements of your land use/entitlement process. We look forward to working with the City to obtain the required project approvals to allow this project to be constructed.

Respectfully,
Shea Carr Jewell

Responsibility of Licensee – It is the licensee's responsibility to notify this department of any changes that may occur to the business. Most changes require an application to be completed and a processing fee to be remitted at the time the application is submitted.

Home Occupation Permits are only approved for the home location on the application. The Home Occupation Permit does not move to another residence. If you move to another residence, you must apply for a new Home Occupation Permit for the new location.

If you close your business, you must complete the statement below and remit to City of Las Vegas, 400 Stewart Avenue 3rd Floor, Las Vegas Nevada 89101

Fees outstanding on an existing business license must be paid prior to making any changes to the business license. If you are taking over the business license, these fees must be brought current. Should your business be under audit you may have additional liabilities when you take over operation of this business.

Narrative: The project will amend the approved site development plan SDR-22582 (Decatur/215). The proposal will reconfigure a portion of the site to replace 91,340 sf of retail uses and five outparcels (including 6,720 sf of retail, a 2,500 sf bank, 6,105 sf restaurant uses and approximately 6,000 sf of drive-through fast food restaurants) with a 94,683 sf discount grocery and two outparcels to include a 5,966 sf bank and 4,125 sf drive-through restaurant.

The proposal also requests amending the conditions of approval for the Decatur/215 project to allow the grocery store to operate 24 hours, seven days a week, and to permit deliveries on Sundays.

The grocery store is planned to include package liquor sales as an accessory use. Of the 94,683 sf, a total of 546 sf will be used for this purpose (beer 340 sf, wine 125 sf and spirits 81 sf).

Transportation and Traffic

- 2.a Would the project include adequate emergency access pursuant to LVMC Fire and emergency response requirements?

Explain: This is an approved project, and the proposed redevelopment is not significantly different from what has been approved.

- 2.b Would the project provide adequate parking pursuant to LVMC parking requirements?

Explain: Yes. City parking regulations require 378 spaces; project will provide 547 parking spaces.

- 2.c Would the project potentially increase hazards due to a design feature (e.g., sharp curves, dangerous intersection) or incompatible uses (e.g., commercial heavy equipment)?

Explain: No. The proposed redevelopment is similar to the approved project for the site.

- 2.d Would the site have sufficient access to streets and highways, adequate in width and pavement type to carry the quantity and quality of traffic generated by the proposed project?

Explain: Yes. The proposed redevelopment does not differ significantly from what has already been approved for the site.

- 2.e Insert a Table (attach additional sheets if necessary), indicating the number of vehicle trips that the proposal will generate, estimated by applying to the proposal the average trip rates for the peak days and hours established by the Institute of Transportation Engineers (or its successor).

Table: Please see attached trip generation tables.

The Traffic Impact Study Update prepared by Orth-Rodgers Associates, Inc. for the DECATUR/215 project in November 2007, estimated trip generation for the entire project as follows:

Table 1. Estimated PM Peak Hour Trip Generation – Decatur 215

The Decatur/215 Redevelopment project will reconfigure a portion of the site to replace 91,340 sf of retail uses and five outparcels (including 6,720 sf of retail, a 2,500 sf bank, 6,105 sf restaurant uses and approximately 6,000 sf of fast food) with a 94,683 sf discount grocery and two outparcels to include a 5,966 sf bank and 4,125 sf drive-through fast food restaurants. Table 2 illustrates the estimated PM peak hour trip generation for the redevelopment proposal. Trip rates for the high-turnover (sit-down) restaurant, fast food restaurant, and bank have changed in the latest edition of the ITE manual and the most current rate was used below. Current pass-by rates were also used, but the internal capture rates used in the Traffic Impact Study were not recalculated.
