Request for a Variance to allow a zero-foot front and side yard set back

COMMENTS:

We have no comments on the request for a Variance to allow a zero-foot front and side yard setback where ten feet is required on 1.03 acres at 2700 and 2770 Highland Drive. We note that this action is related to Site Development Plan Review SDR-40374 and all of our recommended conditions are associated with that action.

Scope of Work will include the remodel of the existing 22,244 sq.ft. warehouse building with creating second floor and roof level rooms and wine tasting roof area.

We are also proposing to add two enclosed loading docks, 1900 sq.ft on east side and 1,375 sq.ft. on the west side of the existing building.

The total square footage with all additions will increase the building's "usable area" from 22,244 SF to 45,398 SF.

We are requesting two variances:

1: Parking: We are requesting approval of 8 parking spaces as shown on site plan instead of 47 parking spaces as required by code. We will not need all the parking that would be needed per planning regulations and the parking provided will suffice for our daily operation. The majority of the code required stalls are required due to the roof level wine tasting area. These events are infrequent and will be held during times when the other industrial park businesses are closed.

2: We are requesting a Side (south P.L.) Setback Variance from 10 feet to 0 Foot for the two proposed loading docks. The loading dock additions will match the setback of the existing building to avoid an unsafe condition that would otherwise be created by providing the 10 feet open space behind our new loading docks. We are also requesting a Front (west P.L.) setback Variance from 10 feet to 0 foot for the proposed western loading dock addition. The longer lengths of the loading docks will allow the required Parking backup spaces required for the cars and allow adequate turning areas for the trucks.

Lastly, we are requesting a waiver of the required on-site landscaping regulations of Title 19. Currently there is no landscaping on the property. The subject site is "land locked" and not visible from the street; however, we are still proposing to add two planter areas on the front(west) side of the building with decomposed granite, shrubs and palm trees, but will be unable to add the additional perimeter and parking lot landscaping due to existing site conditions.

Please consider approval of this application as we have made every effort to ensure this project will be a positive addition to the community.

Sincerely,

Gaetano D'Aquino

To Whom It May Concern:

The existing warehouse building is currently vacant and has a low barrel roof. In order to store the wine pallets, three stacks high, we are proposing to raise the building height from 13 feet to 25 feet clear inside by increasing the height of the exterior walls and installing a new flat roof.

The exterior appearance of the building will be upgraded to the Italian winery style design elements and Color scheme to compliment the proposed design upgrade.

The new roof level will have "wine tasting" area for our vendors and wholesale customers to sample the product prior to purchase. These events will be attended by invitation only and not open to retail customers.
