Subject: CLV 2/08/11 Planning Commission -- LVVWD comments

Hi Carman,

Here are the comments from LVVWD. Thank you!

Doa

SDR-40374: The domestic meters associated with 2770 Highland Drive have adequate backflow prevention installed. The master meter associated with 2700 Highland Drive does not have backflow installed. No indication of separate fire service existing for 2770. Civil plans are required to be submitted to LVVWD.

SUP-40575: The existing meter does not have a backflow prevention assembly and one is required. Civil plans are required to be submitted to LVVWD.

SDR-40435: There is an existing small domestic meter with a small backflow prevention assembly. If the proposed project will have a fire protection system installed (sprinklers) then a larger meter and a different type of backflow prevention assembly may be required. Civil plans are required to be submitted to LVVWD.

SDR-40563: There are three existing domestic meters and only one backflow prevention assembly. The proposed development, and any increase in fire protection system, may require the meter(s) and backflow prevention assembly to be upsized or changed out. Civil plans are required to be submitted to LVVWD.
