## **FINDINGS**

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

The site is designated for Service Commercial land uses by the Centennial Hills Town Center Land Use Plan. The proposed Auto Repair Garage (Minor) use is in conformance with this designation and is compatible with existing and future land uses as projected by the Town Center Plan.

2. **The subject site is physically suitable for the type and intensity of land use proposed.**

The proposed Auto Repair Garage (Minor) use will be located on undeveloped land and its introduction will not change the characteristics of the site.

3. **Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

Access to the convenience store will be provided by Centennial Parkway, classified as a 90-foot Frontage Road; and Durango Drive, classified as a 120-foot Town Center Parkway Arterial on the Master Plan of Streets and Highways. These roads will be adequate to meet the demand of the proposed use and for the overall retail center.

4. **Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

Approval of a Special Use Permit for Auto Repair Garage (Minor) is consistent with the types of uses found within the SC-TC (Service Commercial Town Center) District and the objectives of the General Plan. In addition, routine inspections by Business Licensing will ensure that the public health, safety, and welfare of the public is safeguarded.
