Submitted after meeting: Copy of Proclamation proclaiming September 2006 to be National Prostate Cancer Awareness Month

Minutes:

No motion required. A presentation was made.

MAYOR GOODMAN called forward JULIANA PISANI, Vice President of Operations, American Cancer Society, Great West Division, and proclaimed September as National Prostate Cancer Awareness Month. The Mayor announced that prostate cancer is the most commonly diagnosed cancer among men, and it attacks both young and old. The U.S. Conference of Mayors, an organization in which he is very active, is very dedicated to saving lives through informed decision-making, screening and treatment.

MS. PISANI encouraged people to gather information to see if they are at risk of getting prostate cancer. People can contact the American Cancer Society, which is a 24-hour organization.
