**APPLICATION REQUEST**

This is an appeal filed by the applicant from a denial by the Planning Commission on a request for a Variance to allow a 2.75 foot side yard setback where 10 feet is the minimum setback required on 0.46 acres at 1830 Rosemere Court.

**EXECUTIVE SUMMARY**

The applicant is adding a new garage and a second level expansion of their existing house. The garage and second level expansion of the existing house encroaches into the 10 foot side yard setback by seven and half feet. The hardship is self-imposed and staff cannot make a finding for approval.

**A) Zoning Code Compliance**

A1) Development Standards

Pursuant to Title 19.08, the following Development Standards apply to the subject proposal:

<b>Standards</b>	<b>Required</b>	<b>Requested</b>	<b>Compliance</b>
Min. Lot Size	20,000 Feet	20,037	Y
Min. Lot Width	100 Feet	160	Y
Min. Setbacks			
• Front	50 Feet	50 Feet	Y
• Side	10 Feet	2.75 Feet	N
• Corner	15 Feet	NA	Y
• Rear	35 Feet	63 Feet	Y
Max. Lot Coverage	NA	NA	Y
Max. Building Height	2 Stories / 35 Feet	20 Feet	Y

The proposed project is in compliance for the front and rear setback. However, the project provides for a side setback of 2.75 feet where 10 feet are required on the north side-yard setback. In addition, the east side-yard setback provides a 5 foot setback where 10 feet are required. The subject deviation for the north side-yard setback is 72.5% and the subject deviation for the east side-yard setback is 50%.

**B) General Analysis and Discussion**

The applicant is adding a new garage and a second level expansion of their existing house. The garage and second level expansion of the existing house encroaches into the 10 foot side yard setback by seven and half feet. The hardship is self-imposed and staff cannot make a finding for approval.

**FINDINGS**

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.

Additionally, Title 19.18.070L states:

Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by proposing to overbuild the site. A smaller building design would allow conformance to Title 19 parking requirements. In view of the absence of any hardships imposed by the sites physical characteristics, it is concluded that the applicants hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
