In Order to increas the economic solution of my family and to keep the culinary roots of my ansestor, with that. 1/11/05 I Opened this restaurant of cuban foot; "Cafe Cuban Breeze"; But also by tradition to must of the Cubans we like to accompany our menu with a cold beer or a tempting glass of wine. That is the reason by I have asked for the license to sell beer and wine in any premises, this way my clients would feel more satisfaid with our already efficient service, which also would work to my favor when increasing the affluence of people to this place.

Sincerely.

Noel Hernandez
