The applicant provides adequate perimeter landscaping along the north and east boundaries of the site. The applicant does not provide any landscaping on the south side of the property along Westcliff Drive and is requesting a Waiver of the perimeter landscape buffer requirements which staff cannot support.

Along the 31,126 square foot worship center, the applicant provides foundation landscaping but does not show the required one landscape island for every six parking spaces. In addition, the applicant is proposing 53 inch wide landscape fingers where 60 inch wide landscape fingers are required. A Waiver of parking lot landscape fingers has also been requested as part of this application. While the applicant does not meet the required landscape island requirements, the applicant does provide foundation landscaping and 61 trees in the parking area where 60 are required. If the applicant were to replace the parking spaces with landscape fingers to meet the required number per Title 19.12., they would be deficient in parking. Therefore, staff supports the waiver of parking lot landscape fingers.

B) General Analysis and Discussion

•Zoning

The property is zoned C-1 (Limited Commercial). The proposed house of worship is a permitted use in this zoning district.

•Site Plan

The site development plan meets Title 19 Development Standards in terms of setbacks and parking.

•Waivers

Title 19.12	Required	Provided	Staff Recommendation

Parking area landscape fingers	1 per every 6 parking spaces	No fingers along the foundation parking spaces, however applicant does exceed the total of trees required and provides adequate foundation landscaping	Staff supports

•Landscape Plan

The applicant provides adequate perimeter landscaping along the north and east boundaries of the site. The applicant does not provide any landscaping on the south side of the property along Westcliff Drive and is requesting a Waiver of the perimeter landscape buffer requirements.

Along the church, the applicant provides foundation landscaping but does not show the required one landscape island for every six parking spaces. A Waiver of parking lot landscape fingers has also been requested as part of this application. While the applicant does not meet the required landscape island requirements, the applicant does provide foundation landscaping and 61 trees in the parking area where 60 are required. If the applicant were to replace the parking spaces with landscape fingers to meet the required number per Title 19.12., they would be deficient in parking.

•Elevation

The building elevations show the building to be 45 feet, five inches in height to the top of the roof line; the steeple projects to a height of 77 feet, eight inches. The façade consists of foam cornices with stucco and kite shaped decorative insets. A metal ribbed roof will be constructed; the steeple is pre-fabricated.
