To Whom It May Concern:

I am aware of the fact that Ron and Marilyn Walker at 1295 S. Tenaya Way are submitting plans for a Variance and Special Use Permit for a non-habitable structure on their property. The height of this garage will be 4 feet taller than the main dwelling and 862 square feet larger than the 1613 square feet permitted. It will also be located approximately 100 feet from the front of the property. I am in support of their efforts to improve their property and help increase the value of the properties in our neighborhood.
