MECHANICAL
Dear Ladies/Gentlemen:

ELECTRICAL
PLUMBING
Please accept this letter from Wright Engineers on behalf of our client, Tousa Homes, Inc., as the justification for related requests for a Rezoning, a Variance and a Site Development Plan Review for development of property located at the northwest corner of Deer Springs Way and Bradley Road, also known as Falcon Crest Unit 1 (APN 125-24-203-022).

ARCHITECTURAL
Our client intends to develop five single-family homes on the site. The site is currently designated L (Low Density Residential) in the City's Master Plan, which allows for densities up to 5.5 u.p.a. The site is currently zoned R-E (Residence Estates).

The applicant is requesting a conforming Rezoning from the R-E district to the R-PD2 (Residential Planned Development - 2 Units per Acre) on the subject site. Although the density of the proposed project, at 2.86 u.p.a., is far below the Low Density threshold of 5.5 u.p.a., the intent is to match the scale and density of the surrounding properties in the area. All of the proposed lots exceed 16,000 s.f. in area, which is in scale with nearby development. A Site Development Plan Review for the project is also being submitted. This site plan conforms to Title 19 regulations, with the exception of the minimum site size requirement of 5 acres for R-PD developments (a request for a Variance to this requirement is also being filed), and a waiver of the perimeter landscaping strip along Deer Springs Way (the one on Bradley Road is being provided). The reason for this waiver is to have the project match the lots to the west of the cul-de-sac entrance, where no landscape buffer exists. This waiver is requested as part of this Site Development Plan Review.

The proposed rural density residential development will be compatible with surrounding residential uses, and will be a logical and attractive use of an infill parcel that will be designed to compliment the area.

Thank you for your consideration.

Sincerely,

Gary Leebold, AICP
Director of Planning
