**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This is a request for a Rezoning from R-E (Residence Estates) to R-PD2 (Residential Planned Development - 2 Units Per Acre).

The proposed rezoning to and R-PD2 (Residential Planned Development 2 Units Per Acre) is not considered appropriate for this location. The parcel does not meet the minimum lot size for Residential Planned Development and a Variance (VAR-17244) is required. The lot sizes that result from this rezoning are approximately 4,000 square feet smaller than what is currently permitted on this property. The setbacks that would result are more closely related to those of the R-D (Single-family Residential-Restricted) District than the current R-E (Residence Estates) District. Due to these factors denial of this request is recommended.

<b><i>Related Building Permits/Business Licenses</i></b>	
There are no permits or licenses related to this development.	
<b><i>Pre-Application Meeting</i></b>	
09/15/06	A pre-application meeting was held. It was noted that the site was located in the Rural Preservation Overlay District Buffer. The applicant stated that these would be a mix of one and two-story homes and that the cul-de-sac would align with the western portion that is already developed.
<b><i>Neighborhood Meeting</i></b>	
A neighborhood meeting is not required, nor was one held.

*Per Title 19.06 the following Development Standards apply:*

<i>Standard</i>	<i>Provided</i>
Min. Lot Size	16,030 SF
Min. Lot Width	91.79 Feet
Min. Setbacks	
• Front	20 Feet

<i>Existing Zoning</i>	<i>Permitted Density</i>	<i>Units Allowed</i>	<i>Proposed Zoning</i>	<i>Permitted Density</i>	<i>General Plan</i>	<i>Permitted Density</i>
R-E (Residence Estates)	2 Units per Acre	Seven  (Only Five are Proposed)	R-PD2 (Residential Planned Development 2 Units Per Acres)	2.49 Units per Acre	L (Low Density Residential)	5.49 Units Per Acre)

*Per Title 19.06.040, the following parking standards apply:*

<b><i>Open Space</i></b>
Residential Planned Developments with less than 12 units are not required to provide open space. This development proposes five-lots and open space is not required. It is noted that the applicant is providing a six-foot streetscape area along Bradley Road (Common Lot A) that includes landscaping that meets Code requirements. The applicant is requesting a waiver of the streetscape requirements along Deer Springs Way.

*Pursuant to Title 19.10, the following parking standards apply:*

<b><i>Parking Requirement</i></b>
The project is required to provide a minimum of two parking spaces per unit. Each unit proposes a minimum of a two car garage, while most units include a three car garage. This meets Title 19.10 parking requirements.

## **ANALYSIS**

The proposed rezoning is not considered appropriate. The parcel does not meet the requirements of Title 19.06.040 for Residential Planned Development as it is less than five acres in area. The subject property is 43 percent deficient in acreage. This deviation requires a Variance (VAR-17244) and denial of that variance is recommended. It is further noted that this rezoning to an R-PD2 (Residential Planned Development 2 Units Per Acre) District would permit the applicant to develop one additional lot on the property than what would currently be permitted under the R-E (Residence Estates) District. The result is lot sizes of just over 16,000 square feet where 20,000 square feet is currently the minimum permitted. The smaller lots create shorter setbacks. The proposed development standards make the site incompatible with the surrounding neighborhood. Denial of this request is recommended.

## **FINDINGS**

In order to approve a Rezoning application, pursuant to Title 19.18.040, the Planning Commission or City Council must affirm the following:

**1. The proposal conforms to the General Plan.**

The proposed R-PD2 (Residential Planned Development 2 Units Per Acre) District would be in compliance with the General Plan, which is L (Low Density Residential). It is noted that this General Plan Designation is not reflective of the development in the neighborhood. The area is primarily R-E (Residence Estates) zoned with lot sizes of over 20,000 square feet. This is more typical of the RNP (Rural Neighborhood Preservation) land use designation. While the proposed development conforms to the General Plan, the proposal is considered to be incompatible with the surrounding area due to smaller lot sizes, the required Variance, and waivers of streetscape standards.

**2. The uses which would be allowed on the subject property by approving the rezoning will be compatible with the surrounding land uses and zoning districts.**

The single-family residential use is compatible with the area; however, the proposed design includes lot sizes that are smaller than adjacent lots and additional deviations from standards that make the proposed project incompatible with the area.

**3. Growth and development factors in the community indicate the need for or appropriateness of the rezoning.**

Growth and development factors do not indicate the need for this rezoning. The applicant is simply gaining an additional lot over what would otherwise be permissible under the current zoning designation.

**4. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed zoning district.**

Site access is provided from Deer Springs Way, an 80-foot Secondary Collector. This street will provide adequate access to the proposed development.
