**** STAFF REPORT ****

PROJECT DESCRIPTION

This is a request for a Rezoning to a C-M (Commercial/Industrial) District on 1.09 acres at 2029, 2039, and 2041 West Bonanza Road. The property currently consists of developed land that is zoned C-2 (General Commercial). The applicant indicates this action will allow for uses that are currently not permitted in a C-2 (General Commercial) district.

The proposed rezoning to the C-M (Commercial/Industrial) zoning district is consistent with the existing LI/R (Light Industrial/Research) Master Plan designation. It is also consistent with the existing auto service and equipment rental uses in the vicinity. Approval is recommended.

BACKGROUND INFORMATION

ANALYSIS

The subject property is designated as LI/R (Light Industrial/Research) under the Southeast Sector Plan of the General Plan. This category allows areas appropriate for clean, low-intensity (non-polluting and non-nuisance) industrial uses, including light manufacturing, assembling and processing, warehousing and distributions, and research, development and testing laboratories. The existing buildings are currently used for appliance sales and service and sign painting which are in compliance with the General Plan. The proposed rezoning to the C-M (Commercial/Industrial) zoning district will allow a variety of uses not currently allowed under the C-2 (General Commercial) zoning district.

The site is within the North Las Vegas Airport Overlay Map portion of the Airport Overlay District. This is a developed site and is in compliance with Title 19.06.080 (B) which allows a structure to a height up to thirty five feet above the surface of the land on any parcel without a height limitation review or prohibition.

The site encompasses two parcels with existing buildings built at the lot lines. Additionally, should the parcels in the future become separate sites the site will placed out of conformance with development standards for the proposed C-M (Commercial/Industrial) zoning district. For this reason a condition has been added that prior to the issuance of any building or grading permits that a reversionary parcel map or administrative joining consolidating the parcels be recorded.

The proposed rezoning to the C-M (Commercial/Industrial) zoning district is consistent with the existing LI/R (Light Industrial/Research) Master Plan designation. It would also make it consistent with surrounding land uses, which consist of building and landscape supplies and equipment rental uses to the west and east of the property. For these reasons staff is recommending approval of this item.

FINDINGS

In order to approve a Rezoning application, pursuant to Title 19.18.040, the Planning Commission or City Council must affirm the following:

- 1. The proposal conforms to the General Plan.**

The proposed rezoning would bring the zoning at this site into conformance with the LI/R (Light Industrial/Research) designation as listed under the Southeast Sector Plan of the General Plan. The Light Industrial/Research category allows a variety of commercial and light industrial or research uses. The sites existing buildings can accommodate the range of uses and is in compliance with the General Plan.

2. The uses which would be allowed on the subject property by approving the rezoning will be compatible with the surrounding land uses and zoning districts.

Currently, there is a large residential lot north of the subject site and interstate right-of-way to the south of the property which should not be affected by the possibility of rezoning. The proposed rezoning would be compatible with the building and landscape supplies and equipment rental uses to the west and east of the property.

3. Growth and development factors in the community indicate the need for or appropriateness of the rezoning.

Growth and development factors indicate a need for light industrial activities to locate in this area. Given the existing General Plan designation of LI/R (Light Industrial/Research) on the subject site, the rezoning to the C-M (Commercial/Industrial) zoning district is appropriate for the area.

4. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed zoning district.

The site will receive access from West Bonanza Road, which is adequate in size to meet the requirements of the proposed C-M (Commercial/Industrial) zoning district.

PLANNING COMMISSION ACTION

There were two speakers in opposition. The applicant agreed to all conditions. Public Words request that condition #5 be deleted.
