8. Conformance to all Minimum Requirements under LVMC Title 19.04.050 for a off-premise advertising (billboard) use.

**\*\* STAFF REPORT \*\***

**APPLICATION REQUEST**

This is an appeal filed by the applicant from the denial by the Planning Commission of a request for a Special Use Permit for a proposed 40-foot tall, 14-foot x 48-foot off-premise advertising (billboard) sign at 1619 West Charleston Boulevard. The sign is to be located within an existing church parking lot located west of the McDonalds restaurant.

This billboard is one of four to be considered on this agenda. Staff has prepared a map of the proposed billboard locations, on which the subject sign is identified as billboard C

**EXECUTIVE SUMMARY**

The Southeast Sector Map of the General Plan and the Charleston/Rancho land use study both designate this site for O (Office) land uses. Because the zoning districts recommended for this property by the Office land use designation do not permit billboards, and because staff is recommending denial of a related General Plan Amendment to SC (Service Commercial) (GPA-13372), staffs recommendation is for denial.

**ANALYSIS**

**A) Zoning Code Compliance**

**A1) Minimum Distance Separation Requirements**

The Off-Premise Advertising (Billboard) Sign is subject to a minimum 300-foot separation from other off-premise advertising signs not oriented toward I-15. There are no existing billboards within the separation distance, and the applicant has indicated that this billboard will be at least 300 feet from the billboards that are proposed under Special Use Permits SUP-13362, SUP-13494, and SUP-13495.

In addition, the sign cannot be located less than 300 feet from the nearest property line of a lot in the R Zoning District. The nearest R zoned property is located approximately 600 feet to the south of the proposed location.

**A2) Off-Premise Sign Requirements**

Pursuant to Title 19.04, the following Standards apply to the subject proposal:

<b>Standards</b>	<b>Code Requirement</b>	<b>Proposed</b>	<b>Compliance</b>
Location	No off-premise sign may be located within the public right-of-way	Located south of the Charleston Boulevard right-of-way	Y
Zoning	Off-premise signs are permitted in the C-1, C-2, C-M and M Zoning Districts only	Located within a C-1 (Limited Commercial) zoning district	Y

Area	No off-premise sign shall have a surface area greater than 672 square feet, except that an embellishment of not to exceed five feet above the regular rectangular surface of the sign may be added if the additional area contains no more than 128 square feet.	The east and west faces are each 378 square feet.	Y

Setback	Off-premise signs shall not be located closer than 50 feet to the intersection of the present or future rights-of-way of any two public roads, streets or highways.	The subject sign is set back approximately 470 feet from the right-of-way line of the intersection of Charleston Boulevard and Desert Lane	Y
Screening	All structural elements of an off-premise sign to which the display panels are attached shall be screened from view.	Screened from view by sign panels	Y
Other	All off-premise signs shall be detached and permanently secured to the ground and shall not be located on property used for residential purposes.	Permanently secured to ground; no residential uses on site.	Y

The proposed Off-Premise Advertising (Billboard) Sign meets the provisions of the Title 19 sign code.

**B) General Analysis and Discussion**

•Zoning

The subject site is zoned C-1 (Limited Commercial) and is not located within the Off-Premise Sign Exclusionary Zone. An Off-Premise Advertising (Billboard) Sign is a permitted use in this district with the approval of a Special Use Permit. However, the Southeast Sector Map of the General Plan and the Charleston/Rancho land use study both designate this site for O (Office) land uses. The zoning districts recommended for this property by the Office land use designation do not permit billboards.

## FINDINGS

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

- 1. The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

Per Title 19.14 (B)(2), in determining whether to approve or deny a Special Use Permit under this Section, the Planning Commission and City Council may consider the aesthetic impact of the sign on the area and all other aspects of the signs compatibility with the surrounding area, including the existence or nonexistence of other signage in the area. This proposed use would be located in the O (Office) General Plan designation. This area is characteristic of office development, and is not compatible with this proposed billboard.

- 2. The subject site is physically suitable for the type and intensity of land use proposed.**

There are no physical constraints to the location of the use on the subject site.

- 3. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

There are no requirements for access to a property containing an Off-Premise Advertising (Billboard) Sign.

- 4. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

In 2002, the City of Las Vegas approved a land use study of properties located in the vicinity of Charleston Boulevard, Rancho Drive and Martin L. King Boulevard in an effort to resolve land use conflicts in the study area. The Charleston/Rancho study redesignated all properties along the south side of Charleston Boulevard between Rancho Drive and Desert Lane for O (Office) land uses. This action provides a consistent land use buffer between the very intense uses of the Las Vegas Medical District and the residential neighborhoods south of the subject properties. The proposed Off-Premise Advertising (Billboard) Sign would result in the incompatibility of land uses that the Charleston/Rancho study sought to resolve.
