**Dept./Division:**

**PURPOSE/BACKGROUND:**

Cheetah is a wireless telecommunications service provider that wishes to install its equipment on existing poles in the rights-of-way. In March 2006, the City Council approved a Wireless Use Agreement with Cheetah allowing it to use streetlight poles and requiring Cheetah to provide its own power source for its equipment.

Cheetah has requested the following changes to the 2006 Agreement, which Public Works has approved: (1) Cheetah will also be allowed to use traffic signal and school flasher poles; (2) Cheetah will be allowed to use 25 poles per square mile (increased from 12); and (3) Cheetah will share power sources with the City and will reimburse the City for any significant increase in the City's power costs.

**RECOMMENDATION:**

It is recommended that the City Council approve this Amendment to Wireless Use Agreement.
