ANALYSIS

The subject site is currently zoned R-1 (Single-Family Residential) within the L (Low Density Residential) General Plan Land Use Designation. A companion General Plan Amendment (GPA-20481) seeks to change the designation from L (Low Density Residential) to PF (Public Facilities) while this application for Rezoning will change the subject site from R-1 (Single-Family Residential) to C-V (Civic).

A companion Site Development Plan Review (SDR-20483) for a Community Recreation (Public) use will be considered with this application and the General Plan Amendment. The Community Recreation (Public) use is permitted in the C-V zone which is further consistent with the P-F General Plan designation. Development standards for the C-V zone are determined by the Rezoning and Site Development Plan Review process. This application, if approved, will satisfy this requirement.

FINDINGS

In order to approve a Rezoning application, pursuant to Title 19.18.040, the Planning Commission or City Council must affirm the following:

1. The proposal conforms to the General Plan.

The proposed rezoning is consistent with the proposed General Plan land use designation for the site, which is PF (Public Facilities). In addition, the proposed use supplements the goals of the Parks Element of the Las Vegas 2020 Master Plan, by providing a Community Recreational Facility within the established urban area.

2. The uses which would be allowed on the subject property by approving the rezoning will be compatible with the surrounding land uses and zoning districts.

The proposed use will be consistent with the adjacent church and Masonic Lodge and will provide an appropriate buffer to the adjacent residential uses.

3. Growth and development factors in the community indicate the need for or appropriateness of the rezoning.

The proposed Community Recreational Facility will serve a unique segment of the city's population, and will fulfill a need that is unmet by the existing city parks.

4. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed zoning district.

The location of the subject site in proximity to the Rancho Drive interchange of U.S. 95 makes the location convenient for residents throughout the city. Special care was taken to minimize the impact of this development on Mesquite Avenue and to preserve all existing traffic calming devices.
