## RESULTS OF CANVASS OF THE PRIMARY ELECTION IN THE CITY OF LAS VEGAS APRIL 3, 2007

The results of the April 3, 2007 Primary Election were canvassed comparing the computer printout of ballots counted and the results thereof with the official ballot statements for the 345 precincts used in the election.

Of the 32,492 ballots cast in the 345 precincts, we were unable to reconcile one ballot between the computer count and the roster count in six precincts. There were no tabulation errors in the 345 precincts and the foregoing irreconcilable discrepancies would not alter the outcome of any contest in this election.

Therefore, as the duly appointed Registrar of Voters of Clark County, Nevada, I do hereby approve the canvassed results of the Special Election for certification.

Harvard L. Lomax  
Registrar of Voters

              6364      procedures and allowed voter who claimed
