I have a very difficult lot size; I live at the end of a cul-de-sac and to compare with all my other Nabors, my lot lost about 15 feet in length. I'm trying to replace an older 1970 12' x 62' mobile home trailer with a new 2007 40' X 62' Modular home. Most new modular homes now are sold with an average length of 70' plus. All I am trying to do is replace my current home with the same length in size with a new up to code home. My Nabors are very excited about this due-to, this will help bring up the value of the homes on my block.
