I need a Carport and a cover for my front patio. The extreme heat of the summers will damage my new vehicle.

I am 70 years old and I love to sit out side on my patio but without a cover over the patio, It is to hot for me to sit outside.

I sit and observe the neighborhood and when my neighbors are not home I try to secure their mail especially from UPS.

I once had a carport but I was told I had to take it down or face a large fine. Please grant me this variance
