

**AGENDA SUMMARY PAGE**  
**CITY COUNCIL MEETING OF: SEPTEMBER 5, 2007**

---

**DEPARTMENT: OFFICE OF COMMUNICATIONS**  
**DIRECTOR: DAVID RIGGLEMAN**

**SUBJECT:**  
**RECOGNITION OF THE TEAM OF THE QUARTER**

Minutes:

No motion required. A presentation was made.

MAYOR GOODMAN called forward CLAUDETTE ENUS, Director of Human Resources, CHARLIE KAJKOWSKI, Director of Public Works, and PAUL WILKINS, Director of Building and Safety. The Mayor then recognized the Team of the Quarter, consisting of the following eight employees who make up the Environmental Systems Technician Oversight Committee: NENAD MIRKOVIC of Building and Safety, CLAUDETTE ENUS and ANN RUBERTINO-BECK of Human Resources, and LORI GLESSINGER, TAMMIE HUGHES, TERRY HUGHES, DAVID MENDENHALL and PATTY MOYER of Public Works. This committee was created to coordinate development of the Environmental Systems Technician (EST) Program, which created new job classifications and training within the City. The committee drafted the charter for the program, created the job classifications and assembled the job skill requirements. The first class of this program recently graduated. As a result, the graduates have greater skills and knowledge, and the City has a more efficient and better trained workforce.

MR. KAJKOWSKI said that this team is the best because it consists of members from various City departments. It represents a true collaboration.

MS. ENUS thanked the Council on behalf of the team. She agreed with the comments of MR. KAJKOWSKI that this team is a wonderful collaboration of the departments, serving the interests of the City.

MR. WILKINS expressed his appreciation to MR. MIRKOVIC, noting that he is very particular about his work.
