ANALYSIS

Per Title 19.04.010, the Supper Club Use is described as a restaurant with a bar separated by a barrier sufficient to prevent access by minors. Additionally, the Supper Club Use requires seating for at least 125 persons within the restaurant area and may serve alcoholic beverages in the restaurant area only in conjunction with the service of food. The restaurant operation of the Supper Club is the principal portion of the business.

- **Use**

The proposed Supper Club is to be located within two adjacent suites of an existing Shopping Center on land zoned C-1 (Limited Commercial), in which food service uses are allowed.

- **Parking**

The proposed Supper Club is located within the Plaza de Colores shopping center which has a shared parking agreement recorded for 1900, 1950, 1980, 2000, and 2050 South Rainbow under the MBJR Trust Schwartz Commercial Subdivision. These five addresses constitute the shopping center for which 181 spaces have been provided where the additional Supper Club Use has increased the demand to 173 spaces.

- **Conditions**

Minimum Special Use Permit Requirements:

1. No supper club use shall be located within 400 feet of any church, synagogue, school, child care facility licensed for more than 12 children, or City park.
2. Except as otherwise provided in Requirement 3 below, the minimum distances referred to in Requirement 1 shall be determined with reference to the shortest distance between two property lines, one being the property line of the proposed supper club which is closest to the existing use to which the measurement pertains, and the other being the property line of that existing use which is closest

to the proposed supper club. The distance shall be measured in a straight line without regard to intervening obstacles. For purposes of measurement, the term property line refers to property lines of fee interest parcels and does not include the property line of:

- a. Any leasehold parcel; or
- b. Any parcel which lacks access to a public street or has no area for on-site parking and which has been created so as to avoid the distance limitation described in Requirement 1.

3. In the case of a supper club proposed to be located on a parcel of at least 80 acres in size, the minimum distances referred to in Requirement 1 shall be measured in a straight line:
 - a. From the nearest property line of the existing use to the nearest portion of the structure in which the supper club will be located, without regard to intervening obstacles; or
 - b. In the case of a proposed supper club which will be located within a shopping center or other multiple-tenant structure, from the nearest property line of the existing use to the nearest property line of a leasehold or occupancy parcel in which the supper club will be located, without regard to intervening obstacles.
4. When considering a Special Use Permit application for a supper club which also requires a waiver of the distance limitation in Requirement 1, the Planning Commission shall take into consideration the distance policy and shall, as part of its recommendation to the City Council, state whether the distance requirement should be waived and the reasons in support of the decision.
- *5. In the O District, a supper club is permitted only as an accessory use.
- *6. All businesses which sell alcoholic beverages shall conform to the provisions of LVMC Chapter 6.50.

- **Floor Plan**

The provided floor plan shows the appropriate seating for 125 customers in a restaurant area with a bar and lounge area physically separated by an interior wall. Internal access to the bar and lounge from the restaurant is provided by an internal door that is shared with the kitchen access. There are also separate exterior entrances for both the restaurant and bar areas. A stage and platform area is located within the restaurant area.

FINDINGS

The following findings must be made for a Special Use Permit:

- 1. The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

The proposed Supper Club is situated within an existing building located within an established retail center and is adequately buffered from residential uses to the northeast. However, there is a protected use within 400 feet of the proposed Supper Club.

- 2. The subject site is physically suitable for the type and intensity of land use proposed.**

The existing retail complex primarily provides parking for general retail uses, allowing little leftover parking for the increased demand from a proposed supper club. The original Plot Plan Reviews [Z-81-94(1) and Z-81-94(2)] were approved with substantial retail space dedicated to furniture stores, which have a relatively low parking load. The proposal does meet the current parking standards as outline in Title 19.10 with the proof of a shared parking agreement and by calculating the total parking requirement as a Shopping Center use. However, if approved, this will be the second restaurant for the shopping center and future retail uses may not meet the parking requirements.

- 3. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

Access to the site is directly off of Rainbow Boulevard, a Primary (100-foot) Arterial on the Master Plan of Streets and Highways. Site access and circulation will not negatively impact adjacent roadways or neighborhood traffic.

- 4. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

Although this use is subject to regular City and County inspections for licensing and will therefore, the proposed Supper Club requires the approval of a Waiver to allow a 152-foot separation distance from an established Child Care Facility. Staff finds that this request demonstrates a compromise to the public health, safety, and welfare.

5. The use meets all of the applicable conditions per Title 19.04.

The proposed Supper Club does not meet the Minimum Special Use Permit Requirement #1: No supper club use shall be located within 400 feet of any church, synagogue, school, child care facility licensed for more than 12 children, or City park. The applicant has requested a Waiver to this condition. Staff recommends denial of this proposal based upon this request.
