PURPOSE/BACKGROUND:
NextG is a wireless telecommunications service provider that wishes to install its equipment on existing poles in the rights-of-way. In March 2006, the City Council approved a Wireless Use Agreement with NextG allowing it to use streetlight poles and requiring NextG to provide its own power source for its equipment.

NextG has requested the following changes to the 2006 Agreement, which Public Works has approved: (1) NextG will also be allowed to use traffic signal and school flasher poles; (2) NextG will be allowed to use 25 poles per mile (increased from 12); and (3) NextG will share power sources with the City and will reimburse the City for any significant increase in the City's power costs.

RECOMMENDATION:
It is recommended that the City Council approve this Amendment to Wireless Use Agreement.
