**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This is a request for a Variance to allow a zero side yard setback on the east portion of the site where a 10 foot side yard setback is required for a proposed Car Wash, Full Service or Auto Detailing on 0.76 acres on the south side of West Sahara Avenue.

Proposed for the site is a 1,948 square foot building with an attached uncovered wash tunnel. As stated by the applicant in order to provide the required stacking aisle for automobiles the project was sited on the east property line in a north-south direction. The applicant is attempting to overbuild this site, the deviation is considered a self-imposed hardship, and denial of this request is recommended.

**ANALYSIS**

This site is currently undeveloped. A Car Wash, Full Service or Auto Detailing is proposed for the site, consisting of a 1,948 square-foot building and 1,800 square foot attached uncovered wash tunnel. Access to the site is via a Sahara Avenue. Because of the width of the parcel is narrow at 104 feet the applicant has requested this Variance (VAR-19353) to allow a zero side yard setback where ten feet is required. According to the applicant the only way to make the project fit onto the lot was to site the building on the east property line in a north-south direction in order to provide the stacking space for automobiles. A roofless wash tunnel will be built to the east side property line. This is considered a self-imposed hardship and denial of this request is recommended.

## **FINDINGS**

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.

Additionally, Title 19.18.070L states:

Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by overbuilding the site. Alternative design with less square-footage would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the sites physical characteristics, it is concluded that the applicants hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
